The Dutch Reporter

DEVOTED TO THE INTERESTS OF THE
BREEDERS OF DUTCH,

America's Finest Rabbit

American Dutch Rabbit Club

Jan 70

EDITOR'S CORNER:

There are hints of spring in Minnesota, not enough to make you think of plowing a garden, but a "feel" in the air. Rabbits feel it too, as there are a few litters straggling in and being saved with a little help.

There have been so many good articles the past several months and my "brain cells" have been activated. How about you? Do you feel the urge to reply to any of these good thoughts etc.? if so, "do it" "Now" There have been good articles from the mid-west and several from the East Coast, but nothing as yet from the South or West with the exception of the excellent article from Don Lovejoy on Color Crossing.

Our Secretary tells us that there is a large turn-over in membership and with this thought in mind we might not be remiss in republishing good articles, say, once a year. Senior members might become a bit disturbed over this, but remember, new people in the rabbit raising fancy, are looking for information and also remember, they are the ones that buy your stock. With that thought in mind, how about decent pedigrees within a reasonable time. What is a "pedigree"? It should be a record of the parentage of the animal that you have probably paid a good price for. What do you as an experienced breeder, think of a pedigree that says something like this:

Pete, C19
Joe, X20 and so on.
Mary, 56

No weights, no colors, no marking defaults, no nothing to help you in a breeding program. The only thing that one can do is to practically start fresh and keep better records to pass on to your customers. Experienced breeders may not need a pedigree, but as soon as one of the herd goes to a "new breeder" records become vital.

Now! another thought. There hasn't been one article submitted regarding the changes in weights etc. from the proponents of the change. Someone must have wanted these changes in order for them to appear on the ballots and there must have been reasons for the changes.

The Dutch Reporter is the voice of the ADRC. This is where your Officers tell you what is going on and this is where you tell them what you want. I'm in the middle and will do my best to keep the wheels greased. Information is most important to an active, healthy membership. This is a national organization, so this information must come from all parts of the country etc. I think that Mrs. Weinhardt made a good "point" in her article this month in that people like to feel personally asked" for these various things and I know that all must realize that a personal contact is impossible, in many cases, so don't be bashful and don't be afraid to "offer"

~~YOU CAN'T BEAT THE DUTCH~~

1970 NATIONAL DUTCH SHOW.....

April 24-26 is getting closer right along. By the time you receive this it will probably be too late for catalog advertising, however, Specials, received to late for the catalog will be posted in the show room, so you can still Boost the Dutch with a cash special at the National Dutch Show in Mason City, Iowa. The sponsors of this Convention-Show are not out to make a mint of money just provide you with a good "SHOW" good "SPECIALS" and a "FUN" time in Iowa. We'll feed you well, at a nominal price and hope to fill a few classes for you, even tho, it's been a long hard winter.

FOR YOUR CATALOG: Write to, Doris Leibel, Secretary, 3850 Beau d' Rue Dr. St. Paul, Minnesota 55111

1970 NATIONAL DUTCH SHOW at MASON CITY, IOWA April 24-26, 1970.....

GUEST WRITER of the MONTH.....J.T. Brown, Springfield, Mo.....

A True Story of a New Dutch Fancier and how it Started.....

We have shown rabbits since 1963 and always admired the Little Dutch as we called them.

It all started at the lowry City, Mo. Judges Conference and Rabbit Show, March 1968.

We were ready to leave and Mr. Eabert (Fibber) McGehee from Tulsa, Okla. Says, "John have you got an empty carrying case?" I said "yes". He handed me a little Black Dutch buck and says, take this home to your little bou, Lane. Lane was 5 years old then, and was home with his Mother as there was serious illness in the family. I arrived home with the little buck, tattooed G1 and gave him to Lane, who promptly named him Fibber G1. It was cold and snowing so a box about 20" wide and 2' long was brought in into the house and placed in one corner of the kitchen for Fibber's house.

Within a week he was house broke and Lane carried him around like a doll. It was just a few weeks until all the neighbors knew that Brown's Rabbitry had a Dutch rabbit.

Fibber was quite a rabbit. We let him run around the house and he became a music fan, Stereo, no doubt. When he was loose and the Stereo was turned on Fibber promptly would go to where one of the speakers was sitting on the floor, park his back side against it and stayed there until the music stopped. He performed for one and all.

Every day the sun was shining and ground clear, Lane would take Fibber out side in the yard and turn him loose to run around. The neighbors thought that was something because Lane could catch Fibber anywhere. He would just sit there and let Lane walk up and pick him up. Lane started to Head Start School in June and talked about Fibber to the Teacher, till she asked him to bring him to school. A number of kids had never touched a rabbit and Lane and Fibber were great hits with the class. Fibber is quite a show-off. Lane told the teacher he liked music so she turned on a record player and sat one of the speakers on the floor. Lane turned Fibber loose, he promptly hunted up the speaker and stood with his front feet on it. Then turning around he sat down beside it. Lane was the proudest Dutch owner alive.

When we visited Mr. & Mrs. R.H. Pearson, our close neighbors and long time Dutch Fanciers, Lane promptly told them about Fibber. Mr. Pearson said, "We have some young in the nest box and as soon as they are old enough to wean I will give you a little Black doe" A few weeks later the doe arrived and Lane named her Molly which is tattooed in her ear. We tried to get him to tattoo her L1 but true to rabbit breeders he had his own ideas and nothing would do but Molly. He stood there to see that his Mother put Molly in her ear. With a pair now, he could hardly wait for Molly to get old enough to breed.

Lane had owned Californians since he was six months old and for two years was the youngest member of the Speciality Club. Now owning Californians and Dutch, his first love is the Dutch. Every show that we attended, Lane wanted Fibber to go. He has one Blue and several second and third place ribbons to his credit. Finally Molly was old enough to breed, Dec. 20, 1968. then on the 21st of Jan. 1969, Molly had seven babies, she raised them all. Lane was the happiest Dutch breeder in Mo. Every time some came to look at the rabbits he had to show them the Dutch and her babies. Molly let Lane play with her and the babies, he had to go see them to make sure that they were all there. With the help of Mr. Pearson, who told us what to look for in Dutch we decided two of the little does were good enough to keep. The other five were sold to kids around the neighborhood for pets. Every kid who seen them wanted one. One little boy came to see them and wanted one but didn't have the money and asked if we would keep it till the week-end till he could sell enough pop bottles for the money.

continued.....

Our love for the Dutch grew and on May 9th and 10th 1969 we went to Tulsa, Okla. to their SpringShow. We bought a trio of Chocolates Dutch from Mr. J.E. O'Malley and at the Springfield, Mo. spring show, two mor Chocolate does were bought from Jim & Marilyn Muskoff, Sparta, Ill. Mrs. Brown promptly claimed the Chocolate Dutch. In July we visited Tulsa, Okla. again and the O'Malley's and Jack Lockhardts. Five more Choc. two Blues and one Blcak, one Steel was brought back to Mo. Our interest in Dutch continued to grow. Mr. Pearson and I visited Mr. Larry Matherly in Brookline, Mo. There I picked up three little Gray does and a buck. We started showing Dutch at the Howell County Fair at West Plains, Mo. July 1969. Fibber was the second Sr. Bk. and Lane was very happy with him.

The next show was at the Ozark Empire Fair, August 1969. We had best of Breed and B.O.S. but as only two breeders were present no champtionship legs were awarded. From there we went to the Mo. State Fair, Sedalia, Mo. Aug. 1969, where Lane Jr. Black buck won his class and won BOS Dutch, and was Lane happy. At the South Central Mo. Fall Show, at West Plains, Mo. Lane Scored again, a son of Fibbers was 1st black Jr. Bk. and BOS Dutch. We also won the B. Dnsplay Trophy. At the Imperial, Mo. show we won several blues and the Dutch Display. After that we went in deeper, Mr. Pearson had bought Mr. Matherly's herd of Dutch which were blacks, blues, torts, grays and steels and decided to sell them. The entire herd including a 16 by 21 ' building was bought and moved to Brown's Rabbitry also the Dutch Mr. Pearson owns, except his Steels.

Brown's Rabbitry had every color Dutch and a herd of Dutch numbering close to the 100 mark, counting babies.

At the Southwest Mo. Rabbit Breeders Show Ozark, Mo. Nov. 3, 1969. Lane scored again with Best Jr. black doe and the BOS. Dutch, a little doe 7 weeks old, a grand daughter of Fibber and Molly.

After that we had sickness in the family that prevented us from attending the Mo. State Convention at Sedalia, Mo. Dec. 6, 1969. At the present our Dutch herd numbers 150 head counting babies, all colors. People who come here to buy the meat breeds hardly ever leave without one or two little Dutch in their arms for pets. Our calls for Dutch babies are hard to keep filled

Only having raised and shown Dutch a little more than a year, I can assure you the Brown's are boosters of the Dutch Rabbit. We are all three members of the AMERICAN DUTCH RABBIT CLUB.....Best wishes to every Dutch Breeder in 1970.....

The three Brown's
John, Esther and Lane.

~~YOU CAN'T BEAT THE DUTCH~~

SOMETHING OF INTEREST.....

From Al Meier re: the Standard Committee Action. ADDENDUM.....

The recent issue of the Reporter showing the results of the balloting on the Standard changes gives me reason to understand why the the ARBA committee never got a request for the changes. None of these items passed the requirements for Standard changes as required by the American Dutch Rabbit Club. Article 1V, Section 2, If these changes, revisions or additions are approved by a three fourths majority---etc.

The only one close was the limiting weight on juniors, 178 for and 62 against, total 240 x 75, requires 180 votes to pass.

Al

~~YOU CAN'T BEAT THE DUTCH~~

FROM OUR MEMBERS.....

Mr. Don Reid, Pres. ADRC

Dear Don:

After all these years, I have never been asked the question you asked concerning the eye color of Blue Dutch when you called the other evening. It really puzzles me, now that I think of it, that the eye color in the Blues has never been brought up.

As to Mr. Chinn's letter to you, relative to the eye color of Blues, I have always taken our standard the way that it was written, and had never thought about the pupil. Quoting from the standard: eyes should be hazel in Blacks, Steels, Greys and dark blue in Blues, brown in Chocolates. Eyes to be clear, bright and bold, free from spots in iris and free from any other discoloration. Both eyes to match in color.

Mr. Chinn's letter intrigued me so that I checked the eyes of the rabbits in my rabbitry Blues, Blacks and Tortoise. I was surprised to find that the color of the pupils in all three colors appeared to be the same. It was a dark color, difficult to describe the exact shade, it being so dark in color. The iris, the part around the pupil, of all three colors was as described in the Standard.

The iris in the Blues vary in shade of color as the fur varies in shade in color. The exact shade of Blue, be it eye color or fur color, is very difficult to describe with words.

My curiosity still aroused I began to check the eyes of people and found that the pupil of their eyes were much the same in color as the pupil color of rabbits. The color being the iris of the eye. The only exception would be the pink eye, the pupil in such a color would be pink, the pink eye being found only in the albino.

I feel that it would be a good idea to review the Standards with the idea in mind of changing the wording on eye color of all breeds, with the exception of the pink eyes to read the color of pupil to be dark.

In the Dutch Rabbit Club Book there is an article I wrote concerning color breeding of Blacks and Blues. It mentions eye color and the resultant problems with speckled eyes and method of preventing such a problem. This article might be of some benefit in answering your question.....

Tom Shufflebotham, Valparaiso, Ind.

~~-----YOU CAN'T BEAT THE DUTCH-----~~

SECRETARY'S CORNER

CHIT CHAT by Jessie Weinhardt,....

It is snowing here again today, but the temperature is beginning to rise, supposed to go up to the mid-teens after too many days of zero and below and I feel in some what philosophical mood. I guess most of us fancy ourselves as somewhat of amateur psychologists and I, for one, quite often find myself trying to analyze why I behave as I do in certain situations. One thing that I know for sure is that I cannot do my best when under pressure. Frustration builds up to a point where I just drop everything and go do some "busy" work to take my mind off all of the things that I should be doing. Every once in a while I will go back and make a stab at those things that I know are important, but until the pressure wears off, I might just as well sit back and relax for nothing will go right anyway. I get into such a bind as this every once in a while with club work--it works out all right in the long run, but it is mighty uncomfortable while it lasts--I hope this session is about over and I know you all do too.

On rereading the article in the Nov. D.R. by Larry Bengtson I find myself aroused to question him on a point or two. I think one reason why the response to requests for specials and advertising for the Dutch Show is so weak is because many don't feel that they have been personally asked. I realize that personal letters to all of the membership would be financially out of the question with the present cost of postage, but we used to put a "slip" sheet in the Dutch Reporter before each of these shows with a sample ad page, giving sizes and prices and a line for listing any specials each member wanted to give. We are all great "putter offers" and don't think to do a thing unless we are met on the street (or in the show room) with a request for donations or are provided with something other than a mere statement that the time is now to donate.

We realize that costs in all areas have risen, but I think that the set-up of the Dutch Club in providing funds for our National Dutch Show are the best of any club's in the organization. We set aside 25% of all memberships and sanction fees to be split between the National Dutch Show and the the ARBA Convention Show with 25% going for Convention Specials and 75% to the National Dutch Show Fund. In the past this has amounted to, 1966-\$346.46 NDS, 1967, \$340.73, NDS. 1968, \$415.87, 1969, \$434.18 NDS both, 68 & 69, & \$69.11, ARBA Convention Specials. At the present there is \$364.95 in the 1970 NDS Fund which is payable on demand to the committee sponsoring that show. We also have \$42.00 earmarked for the 1970 Convention with six more months to accumulate. So you can see that with some contributions from the membership our National Dutch Show can be even better than in the past. Come on you--all let's support this hard-working committee....

Another point with which I wish to take issue with friend, Larry is his statement, and I quote "The Dutch Club is approaching a point of "neither fish or fowl" having not enough work for a full time worker, yet too much for a part-time worker." In rebuttal I wish to quote Doris's article in which she states again I quote, "I just simply do not have the time that it would take to do this amount of typing (full show reports) This would seem to mean that she is giving all the time she has to spare in doing the job she is. As for myself, handling an average of 10 pieces of mail every day, processing close to 300 show reports a year, which involves preparing the blanks for mailing, recording the date and sponsor in a card file, checking off the report when it is returned (on the file), going through and checking anywhere from 2-3 to 35-40 exhibitors for the expiration dates of their memberships, (when the Show Secretary doesn't forget to send me a list of exhibitors this goes a bit faster) Figuring points on the report sheets, transposing same to a file for each exhibitor member, making out a card for each exhibitor winning a special--believe me, I am more than happy to send these cards to Al Miller and grateful that he does the job of sending out the ribbons!.....Continues

Chit Chat continued.....

You may believe me that there is every bit of work here that anyone would want to do on a spare time basis and I am certain that any job involving this much diversified talent would command much higher wages in the commercial field.

Anyway, let's all get busy and get a new member this month and sell → sell → sell our enthusiasm for our Dutch for without that enthusiasm we certainly wouldn't be the live-wire club that we are.

I hope that elsewhere in this issue you will find the ARBA Standard Committee's ruling on the changes which our membership voted to request on our Standard. Our Standard stays as it was—the ARBA Standard Committee voted all the changes down. You can still show a 5½# junior (if you want to) and senior bucks will remain at 3½ to 5½ pounds. Oh well, we have to admit that their reasoning is sound enough. See you at the shows?

Our Dutch have nice cobby type! We breed for color, marking and type that excels
in having round heads, short ears, and nice round rumps. Nothing over 4 1/2 lbs. used
in our Breeding Program. National Dutch Show and Convention winners year after year!
