## NEWS ON 1951 A. R. &amp; C. B. A. CONVENTION

Mr. Roy Riblet, Box 252, Gibson City, Illinois, Co-Chairman for Dutch at the 1951 Convention Show, sends the following message to all of us:

Dear Friends:

By the time you are reading this article, there will be a letter in the mail to every Dutch Club member requesting Specials for the 1951 National AR&CBA Convention. These Specials are to be in the hands of the show's Planning Committee not later than August 10th and earlier if possible. We would like to hear from every member who receives a letter so as to have a 100% response on sending in Specials. At present, two Specials have been received; now is the time to get them in early to be placed where you wish them to be.

As near as I can figure, there was around \$100.00 placed on Specials for Dutch at last year's Convention at Kansas City. Also, there were 6 Trophies and 8 Rosettes. If we get a response from every member this time, we should make last year's Specials look like a very, very small amount.

Our quota on Dutch at the coming Convention is 359 entries. We are going to have to go some to reach this quota as there were only 165 entries at last year's Convention. I believe if we can get the full support of every member, we can meet our quota and then some.

I was out to the National Dutch Show at Eaton, Ohio, and was very surprised at the turn out of Dutch at the Show. They had 311 Dutch entered and everyone of them was well worth being exhibited at the Show. So, let's everyone of us have our Dutch at the 1951 AR&CBA Convention.

Don't forget - get your Specials in early! Mail them to Mrs. Neubauer, Secretary of the American Dutch Rabbit Club.

We will be looking for all those Specials which will start rolling in now and will look forward to seeing you at Springfield, Illinois, host to the 28th Annual AR&CBA Convention.

Let's go, Dutch Breeders!

Roy E. Riblet

\*\*\*\*\*

Mr. John M. Liddell, Chairman of the Dutch Breed at the 1951 AR&CBA Convention, would like to have the names and addresses of those willing to volunteer to act as comment clerks at the Convention. Comment Clerks, as you all know, are those folks who write down the Judge's remarks on each rabbit as it is judged.

If you are planning to attend the Convention Show and are willing to help as a Clerk, please write to Mr. Liddell at 723 35th Street, Cairo, Illinois, at once. Your help will be greatly appreciated.

\*\*\*\*\*

Room reservations and Banquet reservations for the 1951 AR&CBA Convention Show should be sent to Mrs. Carroll (Helen) Merriett, 2921 So. 5th Street, Springfield, Illinois. Hotel Leland will be Hotel headquarters for the Show.

\*\*\*\*\*

1951 AR&CBA Convention catalog advertising rates are: \$35.00 for full page; \$17.50 for half page; \$10.00 for quarter page; \$5.00 for eighth page and \$3.00 for Judge's or Registrar's listing. Send all copy direct to Mrs. G. W. Crockett; 3039 Alby Street; Alton, Illinois.

ELECTION RESULTS:

Result of the balloting for two Judges to judge the 1951 AR&CBA Convention Show at Springfield, Illinois, October 28th through November 1st is as follows: Tom Shufflebotham 10; Lester C. Wells 9; R. L. Souers 7; Ancel Beaver 7; John Furrer 4; R. J. Bernhardt 3; Wally Wallace 2; Charles A. Wade 2; Dr. Max Andrews 1; Douglas Bass 1; Carldon Gaddis 1; Charles Pine 1; Chas. O. Lewis 1; Bill Robinson 1; Geo. Weisser 1; Karl Sautters 1; Odie Clark 1. We have a ruling in our Club that no Judge can judge two consecutive AR&CBA Shows; Douglas Bass and Robert Sprague judged the 1950 AR&CBA Convention Show and, therefore, would not be eligible to judge the 1951 Convention Show.

Results of the balloting for two Judges to judge the 1952 National Dutch Show are as follows: Ancel Beaver 13; R. J. Bernhardt 8; Tom Shufflebotham 7; John Furrer 4; James Blyth 3; Dr. Max Andrews 2; L. A. Schutze 2; Charles Wade 2; E. J. Slater 1; Ivan Miller 1; Claire Barclay 1; A. L. Nelson 1; Wally Wallace 1; Carldon Gaddis 1; Don Donathan 1; William Roberson 1; Oliver Milliken, Jr. 1; Geo. Bayliss 1; G. C. Leisenring 1; Carl Kroboth 1; Lester Wells 1; R. L. Souers 1. We have a ruling in our Club that no Judge can judge two consecutive National Dutch Shows; Lester C. Wells and R. L. Souers judged the 1951 National Dutch Show and, therefore, would not be eligible to judge the 1952 National Dutch Show.

DUTCH Black and Tortoise out of seven different bloodlines to make this strain I have. All my breeding does and bucks are all registered. Some VERY HOT juniors from my Grand Champion buck, Gene Hollander; R. R. #3 Box 962; Evansville, Indiana. "Not The Biggest But The Best."

-----  
AHEAD, BACKWARD OR ?

D. M. Burkhisér

By way of introduction as this is my first attempt at presenting my ideas through the medium of The Dutch Reporter, I must tell you that:  
1. I am a professor in a State Teachers College in Nebraska. 2. I am an ardent Dutch enthusiast and have been so since 1931 when I purchased my first ones. 3. I know a number of you readers will disagree with me so write me or answer in The Reporter and we may get somewhere.

I've raised rabbits since 1927 and Dutch since 1931 with the exception of two years, and have never given much thought to the commercial end. My space was always limited so that ten to twenty breeding does was my capacity. However, I have sold hundreds of Dutch for meat and always have a quantity frozen in my locker. We would not trade for a larger carcass as this is the ideal size. We would rather fry two than have the pieces so large. My Dutch have paid their own way by those we have on our own table, not taking into consideration those sold for breeding stock or meat.

My first Dutch came from Rev. J. B. Rosemurgy, Columbus, Ohio, and he was doing his share of winning in those days, and he raised good stock but I don't believe I'd exchange for the type of stock I have in my hutches today. The Dutch then were longer, racier, ran to longer heads and peaked noses along with longer ears.

Like all breeders who are interested in making a go of breeding Dutch, I bought good stock, then studied it and line or inbred until I had a strain established that threw a good share of well marked and uniform offspring. I think you will agree that this is no small task as well as a time consuming project. During this process, of course, I was like any true Dutch fancier for the young were hardly littered before I checked them to see how each breeding was turning out.

Well, to span a number of years-- Things went well, my Dutch won their share and my strain was pretty well established. Then their wins began to fade. They would come back from the shows beaten by smaller, more compact and typier Dutch with shorter ears. So, naturally, I secured some of this type and began to work with them and frankly I liked them better, they had every thing my old strain had and put up in a much neater package. Gradually I have come to this smaller, typier Dutch and they have done well in the shows. The past year, however, I received a setback and it leaves me PUZZLED. I shipped some stock to

the Kansas City Convention Show, one of which was a Sr. Chocolate doe of my original strain, weight  $4\frac{1}{2}$ #, but of the rangier, longer eared type, and, believe it or not, she came home with 1st Sr. Doe and Best Opposite in a good class. I had sent her out of sentiment, with a sale price listed hoping that she would be sold, but instead she brings home a blue ribbon. I have the 2nd Sr. Chocolate doe at the National Dutch Show at Eaton and she is practically the opposite of the other one in type and ear length shorter, weight  $4\frac{1}{4}$ #. THE QUESTION--WHICH WAY DO WE GO? These are both top shows with apparently top judges.

I've spent years breeding up to a certain point and now, all of a sudden, I am back where I started from. This is disheartening to say the least. I'm very fond of Dutch, that is why I raise them, and it goes against the grain to have to check on a judge's likes and dislikes before I enter any animals in the show he is judging, in order to give my Dutch their chance to win.

There should be uniformity all the way through and not be dependent on what locality the judge is from. I suggest MORE POINTS ON TYPE and cut the IDEAL WEIGHT to 4 lbs. so that our judges will have some gauge to work by. Then one won't throw the smaller typier ones out because they are not up to ideal weight, and the next judge place them up because he likes them that way. There must be some kind of measure to go by and it is up to us as Dutch breeders to see that something is done about it. Think of the beginners. It's hard enough to breed well marked specimens without having to guess which show to send them to so that they will get a fair evaluation. If you think I'm dreaming, read back through the different judges' remarks on the same animal at shows and I'm sure you will find quite a variance. I'm speaking of type, etc., not condition.

Personally, I don't keep any Dutch over  $4\frac{1}{2}$ # and I am sure that I'll not try to have two types of Dutch in order to show under judges who place them the other way. I'll just not show under them if I know it. In other words, I've changed to the more compact, typier, shorter-eared Dutch and I like them. I don't want to back track down all the years and raise the same type Dutch I did twenty years ago.

We have the world's best rabbit for show, it is a challenge and a pleasure to raise them and they will pay their own way in the meat produced through culls and mismarks. So let's work for a common standard and uniform judging so that we all know what we are working for, and remember YOU CAN'T BEAT THE DUTCH as they have an appeal that no other breed approaches.

A MEMBER'S VIEW

David Holland

I was surprised to read our President's article in The Dutch Reporter. I thought this question had been voted on and settled once.

It is very misleading to these new members who don't know what they are voting for when the President says we have 60 points on markings and 15 on type.

I can only find 50 points on markings and 20 points on type markings - checks 12, blaze 5, neck 5, saddle 10, undercut 8, stops 10 - total 50 points.

We have 20 points on color, 20 on type and 10 on condition, as ears with 5 points are judged on type, making the total on type 20 points. There are 5 points on eyes which are judged on color, and there are 10 points on condition. This breaks our Standard up just even - 50 points on color, type and condition and 50 points on the markings.

What fairer distribution of points could you have than this on a fancy marked rabbit?

Let's breed our Dutch according to the Standard of Perfection. Make the rabbits fit the Standard, not the Standard fit the rabbits.

The perfect Dutch has yet to be kindled.

### Publicity

S. T. Wiggles, Sr.

Last month's article woke up a few of you Dutch breeders; therefore, I'm going to try again in hopes of bringing more of you to life. Yours truly had almost reached the conclusion that all Dutch breeders (as well as myself) had just given up and died, but I have heard from three whom I did not know were in existence.

The Decatur Rabbit Breeders Ass'n., of which I am a member, had the very good fortune of staging an exhibit of rabbits during the week before Easter Sunday. This exhibit was held in the largest department store in Atlanta and, believe it or not, we were well paid to do it. I believe that this exhibit of 22 different breeds created more interest in rabbits by the public than any four shows could have. We estimate that approximately 15,000 to 20,000 people saw the rabbits during the week. And you can bet your life that the Dutch were well represented, and, as usual, they caught the fancy of more people than any other breed. I had the good luck of being on television during the week for a period of ten minutes. The program was a question and answer affair and we had several rabbits on the table and you know without my saying that the little Dutchman was there. This has brought in several inquiries and possibly a new member. Also, on Easter Sunday, there was an article in the magazine section of our local paper which has brought mail from down in Florida in regards to Dutch. We are not bragging for, as I said before, we were lucky. I do think we have something to crow about. I think that clubs all over the country could do the same thing if a little effort was put to it.

Received a very interesting letter from Mr. M. Tuttle of Tuttle's Rabbit Ranch, in East Detroit, Michigan. Letters like this give your publicity director a boost in morale. For, when you know you have others working toward the same goal, you have more interest in the job to be done. Mr. Tuttle is on the ball and has requested some membership applications, and I believe he is going to use them. I believe, and I know of at least one more who does (Mr. Tuttle), that a great deal of our turnover in members is due to most rabbit breeders being of the opinion that Dutch are just plain fancy and show rabbits. They are told that the only way to raise meat rabbits is to get the large breeds. This is not true by a darn sight. I would not swap a 1½ lb. dressed Dutch for a 2 lb. rabbit of a large breed as long as I am in my right mind. First, because the meat is sweeter; second, because the meat is of finer grain, and I dare say as much edible meat as is on the 2 lb. rabbit due to a very fine bone. I'll grant anyone that in order to get a 1½ lb. to a 2 lb. dressed rabbit from a Dutch you have to keep him from 2 to 3 weeks longer. The only drawback I can see is having to feed and water them the additional time due to the fact that they only require half the hutch space as the larger breeds and only take half as much feed. I can prove to you that pound for pound of dressed rabbit the Dutch costs less than the commercial breeds. I could go on for an hour but the editor of this magazine might not have room for it.

Fellows, I'm still waiting for your ideas and suggestions for the promotion of our breed, the Dutch. Send in your idea, for it could well be the turning point for our club. The address is the same and the mailman comes every day but Sunday and he walks just as far to

bring one letter as he would a dozen.

Let's all get busy on specials for Dutch and our ad for the AR&CBA Convention in Springfield, Illinois. More about this next month.

CALIFORNIA DUTCH CLUB NEWS

The twelfth regular meeting of the California Dutch Club was called to order by President Cremer at 9:15 P.M. All officers present with the exception of Jackson and Sears.

The meeting was held at Wing's Cafe in Bakersfield, California. There was a delicious Chinese dinner served preceding the meeting.

The financial report was read and accepted, with balance of \$75.09.

Under old business, Mr. Bayliss who was in charge of committee to change election rules, made report and made a motion, seconded by Didler, that the Secretary draft a resolution to the Constitution that a rule be made to change the ruling from 7 to 6 Directors. Voted on and carried.

Resolution:

Be it resolved that Article II, Part 2 of the Constitution of the California Dutch Club be changed to read: The 12 highest nominated for Director shall be placed on the ballot and 6 (six) selected.

On the discussion of holding a National Dutch Show here in Calif., it was decided to encourage more showing of the Dutch in California Shows for the present time instead of sponsoring the National Dutch Show. Clyde Sabin was appointed as a committee to report back at the next meeting.

It was decided to hold the All Dutch Show at Pleasanton, Calif., December 1st and 2nd. Geo. Bayliss was appointed to be Superintendent of the show. It is to be 50 cents entry fee with a 75% payback.

Trophies for the All Dutch Show were donated as follows: Cremer, Gray Trophy; Sternberg, Best of Breed Trophy; Fidler, Tortoise Trophy; Sabin, Black Trophy; Bayliss, Blue Trophy; Holland, Best Jr. (all colors) Trophy; Paquette, Chocolate Trophy; Sprague, Steel Trophy; Bowen, A.O.C. Trophy.

Judges for the All Dutch Show at Pleasanton are Cremer, Eldridge and Sprague.

Motion made by Paquette, seconded by Bowen, that the California Dutch Club purchase a trophy to become the permanent possession of the Club member winning it three times. Such trophy to be held by the Calif. Dutch Club and the winner each year to receive a miniature or token award. This trophy to be known as the Frank Davies Memorial Trophy. Motion was carried.

The winner of the Frank Davies Memorial Trophy for 1950 was Mrs. Sternberg of Clifton Rabbitry, and the Trophy was awarded to her for winning the California Dutch Club Sweepstake Series.

The second quarterly meeting of the California Dutch Club to be held at N. Hollywood show in May sometime. Third meeting to be held at Orange County Fair in September. Fourth meeting to be held at Pleasanton at All Dutch Show.

The resolution was read to membership on change of the Constitution and is to be read at next club meeting in N. Hollywood.

No further business, the meeting adjourned at 11:00 P.M.

Lee Bowen, Secretary.

### OUR POLICIES -- LET'S DEVELOP THEM!

Charles A. Pine, Director

Our Secretary has informed me that in accordance with the policy adopted at the Kansas City Convention that each officer and Director of the Club is expected to contribute an article for the Reporter during the year. I feel that this is a very good policy as for the first time the members will have a chance to find out what each one's individual views are. I am especially glad to have this chance as I have had several thoughts on our future policy that I have wanted to express but just never did get around to it. My ideas deal mostly with our matters of policy and certainly not on Standards. It seems like standards is about the most talked about subject in the Club - in fact about the only one that ever gets any comment.

The "worry" that I have had for a long time is the very great lack of really old and well-established strains of American Dutch. Perhaps it might be well for me to define my idea of a strain. To some it seems to mean the first generation out of a pair owned by the breeder ---- nothing can be more damaging than this view! A strain should mean a bloodline that has been developed to the point where certain valuable characteristics are definitely fixed in the animals raised; a bloodline that can be depended upon to produce animals of similar characteristics a MAJORITY of the time and, most important, animals all of a common lineage, not for just one or two but of years of careful and intelligent breeding. How many such strains do we have in America? WE COULD COUNT THEM ON THE FINGERS OF ONE HAND AND HAVE FINGERS LEFT! I do not believe that we can do nearly as well without these strains as we could with them. If you doubt me, look at other well-established animal breeders - dogs, cattle, horses, etc.

This situation has been brought about by the continual turn over that has plagued us for years as well as the whole rabbit industry. We have been so intent on "going after new business," in signing up beginners, getting new people started that somehow we have failed to keep the old ones interested and as a result are a continually shifting group. The Dutch Club has not done much to correct this situation in the past except to "regret the situation" occasionally. We have had a good many years of apathetic administration by the elective officers (with the exception of the Secretary's office) with the result that most of the time we have very indefinite policies and most of the time none at all.

I think our President is making an effort to correct this situation by his use of a "State Representative" system to check into the renewals and other of his ideas, I urge that those asked to help in this plan really make an effort to do their part. On the individual's part- STAY IN-KEEP THOSE MEMBERSHIPS UP-TAKE PART BY ADVANCING IDEAS AND FORCING ACTION!

Let's try to give our members something useful to keep them interested by having some actual and practical ideas suggested - for example keep some actual records of color improvement breeding, in breeding for elimination of a fault (cheek drags, split stops, etc.) and share those experiences with other breeders by writing them up. Your experiences may help some other fellow to keep going just when he may be ready to quit! You can do this by adopting and using our R.O.P. system

advanced through the Reporter many months ago. They would devote at least one-half of our publicity efforts toward something to interest the old breeders instead of all toward the new breeders. This can be done through human interest stories, stories about outstanding animals produced by thought and effort, and some real technical articles aimed directly for the older breeders.

My second recommendation deals with out support of National AR&CBA Convention shows. For the most part we have made our Convention Shows very much secondary to our National Dutch Shows. I believe that this is a mistake as they should by all means be equal in support. In fact, we have even greater opportunities for interesting more people at the AR&CBA Conventions than at National Dutch Shows simply because more people are there. I believe the Dutch Club should make a determined effort on the AR&CBA Convention Shows and not leave it entirely up to the Club sponsoring this event. As an example of how we can equalize the support - a few years ago we voted a \$1 increase in dues with the stipulation that 50% of this increase was to go toward the Show fund. I believe this fund should be divided EQUALLY between the Convention show and the National Dutch Show. That was what I, for one, had in mind when I voted for the increase. This equal division has not been made in past years. If we have 300 members we should therefore have \$75 in specials for each show.

I urgently recommend that we start this policy this year for the 1951 Convention and that we get to work right now to raise some money for Specials - to increase the interest in the Convention instead of leaving it all to Springfield to do. Many other Specialty Clubs are already way ahead of us in this respect so LET'S GET GOING! This action can be taken by the appointment of some real good workers to do this job!

I think we have a lot of work to do but I know that we have the potential power to do it if it is just brought out and put to work. It can be done if we officers and directors get together and work out some definite plans and then ask our good members to help -- then we will have something besides Standards to talk about!
