DUTCH DEN NEWS by DORIS:

By the feeling in my back, I suspect that spring has sprung in Minnesota. The grass is green and the flowers "is" tulips, that is. Asparagus is up in the garden, turtles plopping off the log in the pond, new litters to get excited about, can't keep my hands out of the box, looking for these "markers"

It seems that I have been "fighting" deadlines since Feb. 7th and if you are wondering why "this, that or the other thing" hasn't been done yet, I see a coming..... There are just so many hours in the day. I have had correspondence from various members regarding publishing the Sweepstakes Points and have decided to publish what I have, but with the understanding that much more posting and clarifying has to be done. To me these Sweepstakes Records are most important, this is a vital part of our organization. I feel that I will have to go through one complete cycle (year) before I know what I'm doing. Each person works in a different manner, but one should always try to do their work in such a way that some one can come after them and pick up the threads with a minimum of effort. The wheels continue to turn and the current work has to come before the backlog.

Looking forward to the trip to Maryland with much anticipation. Wish there was more time available to me to really see the country.

Many things are slated to be discussed and acted upon by the members in attendance, WILL YOU BE THERE? Am most pleased with the discussion on awarding points to BOB & BOS etc. Many good ideas are being advanced by both lines of thought and after discussion I am sure that a considered conclusion will be arrived at, not a spur of the moment decision. These quick decisions are so hard to undo once they've been made, but by the same token, one never knows how a thing will turn out till they try. SO, let's talk it over.

Show season in Minnesota starts with a Suburban T.R.C. show on May 8th. Shows in the surrounding states have been going since April. Haven't been able to get to them, simply because I can't do the work here and be there at the same time. I begin to wonder if we work too hard on our shows here. This May 8th show will be in a shopping center, fur displays etc. in a store window. Publicity to be handled, with the papers and a Restaurant owner, Hank Meadows for rabbit cookery to appear on T.V. the day before the show, our complete membership has a hand in it some way or another, but it is a lot of work and coordination. Last but by far not least is the fact that we always publish a SHOW REPORT for our local shows, so the exhibitors will know the results and I am becoming increasingly aware that not many local or state clubs do this, we have always felt that it was our obligation to the exhibitor. After all we are running a show and if there is any profit it comes to our organization, therefore we feel show reports are our responsibility to exhibitors.

There have been 109 Show Sanctions processed through the Dutch Den since Feb. 7th, 1971. Sixty six new members and seventy two renewals, with quite a stack to be processed from over the weekend.

The "BOOKS" were balanced against the monies in the bank in the April 1, 1971 financial report, published in the April D.R. and checked out by Mr. Don Unruh, Loaning Officer and Vice-President at the West Saint Paul State Bank. I will also have the books of the organization at Maryland for perusal by anyone wishing to do so.

The Dutch Reporter financial report is self explanatory, It is not hard to see that a great deal of supplies, postage etc. are being used on expanded D.R.'s. Of course, perhaps this is a heavy time of year also and may simmer down later. There has been extra expense in extra mailings of the D.R.'s in trying to straighten out addresses etc.

You will be receiving NOMINATION BALLOTS IN THE NEAR FUTURE. CONSULT YOUR MARCH MEMBERSHIP LISTING FOR ELIGIBLE MEMBERS. CONSULT YOUR ARBA YEAR BOOK FOR JUDGES & REGISTRARS AS THEY MAY NOT ALL HAVE BEEN LISTED IN THE D.R. I picked up only those whose cards were marked thus, and that I knew from personal experience.....

Continued....

DUTCH DEN NEWS (continued)

For the benefit of our new members who may wonder why they were instructed not to vote for various names on the Nomination Ballot, this is covered in the Constitution, printed in the Dutch Guide Book and under voting procedures. The reason that you were instructed not to vote for Don Reid as ARBA Convention Judge is that as an ARBA Director he is not eligible to judge a ARBA Convention Show. (I hope that this discussion covers some of the questions that I have been receiving..)

Tom Shufflebotham suffered a severe heart attack recently, in the hospital and in intensive care. The latest report is that he is out of intensive care and on the mend. Possibly able to attend the National Dutch Show, we're all "pulling" for you Tom and looking forward to saying "hello" at Maryland....

We are at the end of this Sweepstakes Series. I will wind up the details of it and publish it as soon as I can....

I am having the opportunity to see Show Catalogs from all over the country and have you ever thought of all the work involved in this aspect of a Rabbit Show. Some of the catalogs are quite professional and all of them show thought and hard work.

Had a lovely letter from Georgia (Hand) Wireman who now resides in Albuquerque, N.M. (looking forward to visiting with you in Oct.) One thing she commented on was the fact that they have attended several shows in their new area and that things are done differently there than back in Ohio, but isn't it amazing we all seem to arrive at the same goal, that of promoting rabbits in general and Dutch in particular.

Have Fun

BREEDING BETTER DUTCH - By: Don E. Lovejoy

As markings are of primary importance in breeding Dutch, this article will be devoted to the reproduction of well marked animals.

Type, Color & Fur while also very important are characteristics that are easily fixed within a bloodline by selective breeding.

Much has been written about the use of mis-marked Dutch as breeders. Are they of value? Are you building on a good foundation? First we must decide what is a mis-marked animal. A Dutch could possibly have high cheeks, long odd stops and a poor belt and still not possess a standard disqualification. Another could have excellent cheeks, belt and stops and be disqualified by a colored spot on the shoulder.

In my own program off marked does are used for breeding if they meet the following conditions - they must be the direct offspring of outstanding show quality parents. They must come from a litter in which an outstanding show animal is produced or a litter in which all desirable markings are found. They must have markings which impress me, along with their faults.

Careful, selective line and inbreeding will produce well marked animals for you with amazing consistency. Most rabbit breeders place their evaluation of an animal strictly on its phenotype. Proper consideration must also be given to the genotype as what markings you put into the makeup of your Dutch will come back to bless or haunt you.

Your stud buck should be as good as you can get in markings, as well as type color and fur and should be replaced as soon as you get something better. When you get a buck that is truly outstanding, you should line breed him as much as possible to fix his characteristics firmly in the line. Does mated to him should be well marked show animals or meet the qualifications for a mis-marked breeder. Do not save anything from a mis-mark that is not of top quality.

Some breeders select their matings on the basis of balancing faults. I personally try to eliminate faults by breeding only from the best or as close to desirable as possible. If I have five black senior bucks to show, one is still the best. He is the one I want my litters from. Any mating of Dutch can possibly produce a real winner if you're lucky but where do you go from there. Only from a good foundation where all characteristics are firmly fixed can you hope to breed good Dutch consistently.

One of my most promising youngsters at this writing is a baby blue buck from a mis-marked black doe. The doe is the product of breeding two Grand Champions and is a litter sister to my Grand Champion EZ. She was bred back to her G.C. sister to produce this Blue buck. The mis-marked doe that produced him is disqualified by a very poor saddle. She has excellent type, color, stops and the best blaze and cheeks I've ever seen. When this blue buck is ready to use he will be mated only to well marked does.

I have a litter of seven tortoise at present. Five will show and three will make Grand Champions easily. The mother is a Grand Champion and is out of a G.C. buck and a good show doe. The father of the litter is also a G.C. and is a son of the doe. Mis-marked does from this litter would be satisfactory for breeders if they are impressive in some area.

BREEDING BETTER DUTCH (CONT'D)

Basically then to raise well marked Dutch, I believe you must start with the best stock obtainable and stay within a line. Breed from your best and replace animals as you produce better ones. Use mis-marked breeders only when they have the characteristics and background to better your herd. Learn to evaluate your litters. To me a good litter is one in which all markings that are desirable is produced even if a top show animal is not there. It is simply a matter of combining their markings on one animal and repeated breeding of this combination will usually do this or come close. A litter which produces a fault consistantly is not a good breeding and the combination should be changed or eliminated.

While some may not agree with my program, I can only say that this has been a successful approach for me for many years. I breed all varieties of Dutch but only have a few breeders in each bariety. I am unable to attend as many shows as I have in the past but am still raising and shipping to other breeders the kind of Dutch that makes your heart beat a little faster when you look them over.

- - - - - YOU CAN'T BEAT THE DUTCH - - - - -

NEWS AND VIEWS - By Susan Wortman

I have a news item from my end of the country that might possibly be of some interest to fellow Dutch breeders.

On March 13, 1971 the Evergreen R.B.A. had their spring Fancy show at Tacoma, Washington. There were 649 rabbits and 74 Dutch. Judges were: J. C. Lowit, Ore.; Les Helm, Wash,; Gordon Ash, Canada; and Marvin Cummins, Florida.

A Black Dutch Junior buck ear no. H1 was Best in Show. He is owned by Mr. Chuck Chinn, 6012 28th Ave. So., Seattle, Washington. This young buck is extremely nice with excellent type. If I am not mistaken, (and if I am, I will sure hear about it) this was the first time a Dutch has won Best in Show in the Pacific Northwest.

Incidentally, Mr. and Mrs. Chinn are the proud parents of a new baby girl born April 3. They also have a little boy.

- - - - - YOU CAN'T BEAT THE DUTCH - - - - -

NEWS AND VIEWS - By Director G. Jones

In regards to the extra points on Dutch, there are several arguments against Norm McNary's suggestion. It would not cause any more work for a show secretary. The number of Dutch has to be counted for the purpose of making out the legs for B.O.B. - B. Opp. Sex, Best & Best Opp. Varieties. It would not promote a larger entry than the other suggestion. If a breeder knew he would get a point for each rabbit shown, that would entice him to show more Dutch. It would hardly be fair for an entry of 35 Dutch to get 50 points for B.O.B. and an entry of 135 Dutch to just get 50 points.

- - - - - YOU CAN'T BEAT THE DUTCH - - - - -

IMPORTANT NOTICE.....FUND CHAIRMAN FOR THE 1971 A.R.B.A. CONVENTION DUTCH EXHIBIT is, Mike Stinehelfer. We can support our Dutch Breed Exhibit by sending Mike a S P E C I A L...A dollar will do. At the risk of repeating an old cliché, a dollar from each member would make an impressive amount. Remember, a breed is only as good as the members who support it.....Mikes address is, 426 Union Avenue, Bucyrus, Ohio, 44820. Deadline is on or about June 1, 1971 so time is important.....D.L.
