MAKE CHECKS PAYABLE TO THE AMERICAN DUTCH RABBIT CLUB

PRESIDENT'S REPORT WENTON CARLTON

Time once again for Dutch Reporter articles. It's not too much longer until Spring gets here. Those who haven't got their tickets for the National Dutch Show need to get moving. I am told that American and Delta will take rabbits.

There seems to be some misunderstanding about write-in votes for office. Anytime you win as a write-in and receive the most votes, you still have to be approved by the Board of Directors. That's our By-Laws. If you want to get around this, then get your nomination petition from Norma and have it signed. Be sure you get the required number of signatures. If it's done this way, no Board approval is needed.

If anyone has anything for the good of the club and wants it brought up at the Board of Directors meeting, now is the time to present it. We will be meeting in Ohio. Give any ideas, suggestions, or gripes to your officers. Thank You.

I have received a few suggestions and these items will be discussed.

1 - Would like to have a Dutch Hall of Fame, and possibly elect a person or persons into it each year.

2 - Once again, ribbons - hope this can be settled once and for all.

3 - We need a Youth program and Directors. This would be similar to the ARBA setup. Royalty and all for the National shows.

4 - Sweepstakes - Would like something other than trophies. Dutch jackets, pins, hats, caps, etc.

So far that's all I have been sent. These were all brought up by members. If you have any ideas, let's hear them.

Hope you all will have many good Dutch for Ohio. Let's make this the largest National ever. Good Luck in your Spring shows. Hope to see you all in May.

• **DISCLAIMER**

ARTICLES, STATEMENTS, AND THE OPINIONS PRINTED IN THE *DUTCH REPORTER* MAY NOT BE THOSE OF THE ADRC OR THE EDITOR, AND ARE SOLELY THE RESPONSIBILITY OF THE AUTHOR.

FROM YOUR SECRETARY by NORMA HART

By the time you read this, it'll be time for Ohio and the 1991 National Dutch Show. I'm really getting excited about going and I'm definitely looking forward to seeing you all there!

In this issue, you'll find your Nomination ballot for ARBA Convention and National Dutch Show judges. Please take the time and exercise your right to vote. You'll find a current ADRC membership list in this issue. An asterisk (*) denotes a judge; an (H) denotes a Husband/Wife membership; an (S) denotes an Adult membership; and a (Y) indicates a Youth membership. The date listed is your ADRC expiration date. Should you have any questions, ALWAYS feel free to contact this office.

Hope to see you all in OHIO.....

"A LITTLE MIXED UP"

Just a line to say I'm living, that I'm not among the dead, tho I'm getting more forgetful and more mixed up in the head.

For sometimes I can't remember when I stand at the foot of the stair, if I must go up for something or if I've just come down from there.

And before the fridge so often, my poor mind is filled with doubt, have I just put the food away or have I come to take it out?

And then when it is dark out, with my night cap on my head, I don't know if I'm retiring or just getting out of bed.

So if it is my turn to write you, there is no need of getting sore, I may think that I have written and I don't want to be a bore.

So remember that "I LOVE YOU", and wish that you were here, but now it's nearly mail time so I'll say "Goodbye, My Dear"

There I stood beside the mailbox, with a face so very red, instead of mailing you my letter, I had opened it instead.

[Hope you enjoy this as much as I did!...Norma]

DISTRICT 1
FRED MULLINAX

Hi Dutch Fans,

I hope all of you have had a really good year showing and winning with Dutch. Whether you win or lose, if you are a Dutch breeder you are a real winner.

Shows in the South are just about over. There have been alot of shows with alot of Dutch being shown, but I have yet to see a "Best in Show" in the open shows. At the Mocksville show, I did see a really nice blue doe win "Best of Show". There were about forty Dutch which is one of the biggest entries that I have seen here in the South. That makes me proud to be a Director when I see the Youth grow with Dutch raising. Keep up the good work, all of you Youth Dutch Breeders! If you have something to put in the Dutch Reporter, you can give it to me at the shows or mail it to Dick.

I hope all of you are ready for the National Dutch Show. From what I have heard, it is going to be one of the best Dutch shows ever, with a lot of specials. All of you adults and kids get your Dutch ready and bring them to Ohio.

We had a Double Dutch show in Monroe on March 3rd. There were sixty or seventy outstanding Dutch. Pat and Wilson Hathy had 'Best of Breed' in both shows with a really nice Steel Sr. Buck. They were two really excited people after their wins.

I hope to see all of you soon.

EDITOR'S NOTE:

I received the following note from a woman in Delaware that would like to find a home for a Dutch doe.

I am interested in giving my female black Dutch rabbit to one of your members in my area (Delaware, Maryland, New Jersey, or Pennsylvania) for breeding.

She is a year old, healthy, and very active. I would appreciate any guidance you could provide me as to how I could bring her to the attention of your members.

You can write me at:

Pam Delack
2414 Society Drive
Claymont, DE 19703

Perhaps one of our members in that area would like to contact Pam. A picture of the doe was enclosed, and it is well marked, alert, and rounded nicely in the body.

DISTRICT 1
JACK WIREMAN

Shows are in full swing now in District 1. The big one will be here very soon, May 3-4-5.

The folks here in Ohio are all ready for all you Dutch breeders. Catalogs are at the printers and will be mailed out soon, about the end of March. Did you order your's yet if you do not qualify for one automatically?

Seems juniors are on the short end of the stick in this area. Don't know about far east or south and west.

Went to a show in Pennsylvania on Sunday. I understand there was around 80 in Youth and Open together. That's the most Dutch I have ever seen in N.W. Pennsylvania. Keep up the good job you people. I can't remember large numbers in N.E. Ohio and N.W. Pennsylvania in all my years.

Don't have too much news in this area except the weather. Gee whiz, we have that all over!

By the way, we have an American Dutch Rabbit Club meeting at the National Dutch Show. If you have any gripes or ideas and cannot make the show, get in touch with your Director so it can be taken care of. Drop a line to any of your officers. We are here to represent you and listen. We can only do our best. Don't forget, if the wheel doesn't squeak it may not get greased, so speak up. We also can listen to good things if you have any.

Better get this in the mail as I'd hate to see Dick get rusty on the typewriter, so until down the road someplace or sometime, just keep hoppin'!

YOUTH by AMY MINTER

Hi Youth!!! I haven't heard from any of you. Come on, let's show the Open that the Youth is interested. They gave me the position so that the Youth could give ideas to the Open for what we'd like. Let's get those letters to me. I NEED YOUR INPUT !!!

The shows here are just starting. I went to a show in Ohio on the 24th of February. There were only 2 Youth exhibitors. Let's get out there and support the Dutch.

I received a letter from Jill Dobson asking for donations for Youth specials for the Dutch at the ARBA Convention. If you'd like to help support our Youth, please contact her.

I am planning on being in Ohio for the NDS and would really like to meet new Youth members, so please introduce yourself. Let me know what's happening in your area of the country.

**DISTRICT 2
RICHARD GEHR**

As the National Dutch Show nears I am filled with excitement, as there are some animals out here in the rabbitry I would truly like to show. However, I am booked to judge in Minnesota on Saturday, and Iowa on Sunday of the NDS weekend.

Probably the biggest disappointment I will endure is the fact that an old friend, that I consider one of the best Dutch judges in the country will be heading the team as Senior judge, and I will miss out on watching him. I was fortunate to work with Scott Williamson many years on the Dutch breed, and I feel I learned considerably from him. Rest assured, you will get a fair shake and a good job with his judging.

I am sure that the Ohio group will welcome all with open arms, and extend some tremendous hospitality. This is another item I will miss that weekend. Seeing old friends, new friends, and good Dutch is what the NDS weekend is all about.

Shows here in the Midwest have been plentiful this Spring, and there have been good numbers of Dutch shown. No one person is dominating the show tables, so the competition has been plentiful. I believe there will be many Midwest Dutch in the top of the classes in Wellington. Actually, I am looking for a Midwest animal to be crowned B.O.B. or B.O.S.

My best wishes to you all in Ohio, I will miss being there, and I hope everyone has a most enjoyable time.

Be looking to come back to Illinois in the near future for the NDS. We now have a facility that is outstanding, and you can bet we are going to take advantage of it.

Keep the nest boxes clean and full, and I will be seeing you in California if not before.

EDITOR'S NOTE.....

IN THE PRINTING OF THE MEMBERSHIP LIST, AFTER GETTING IT ALL PUT TOGETHER, I DISCOVERED I HAD SORTED ON THE STATE. NOT THINKING ABOUT THE STATES BEING ABBREVIATED, THERE ARE SOME THAT ARE ALPHABETICALLY OUT OF SEQUENCE. THIS WAS AN OVERSIGHT ON MY PART, BUT AT LEAST EVERYONE IS INCLUDED. THIS IS AN ITEM THAT WILL BE CORRECTED WHEN I HAVE SOME SPARE TIME TO WORK ON FINE-TUNING THE SOFTWARE PACKAGE WE ARE PRESENTLY USING. THE ADRC HAS NOT INVESTED ANY MONEY IN SOFTWARE FOR EITHER OF THE COMPUTERS WE HAVE OWNED. IT HAS BEEN FURNISHED WITH THE MACHINES, OR BY ME PERSONALLY.

Dick

**DISTRICT 2
DR. T.E. REED**

There is tremendous enthusiasm throughout the area for the Dutch rabbit and the upcoming National Dutch Show in Ohio. As I travel throughout the country I always have the opportunity to converse with the local Dutch breeders, and oftentimes have the honor of evaluating their entry in competition, and everyone always relates that they will be attending the giant extravaganza in Ohio, or wish that they could attend the show and festivities. This will be an event to remember and all of the Ohio group will provide excellent hospitality.

The Dutch entries at the local shows has been quite high in comparison to the immediate past years. Of more importance is that the overall quality of the animals exhibited is extremely high and there is uniformity in the quality of animals in all the varieties.

The 1991 ARBA Convention will be approaching faster than most realize. Make those plans well in advance and one will find that a little advanced planning will pay dividends in less frustrations and more enjoyment of your endeavors. This is particularly true if you are planning on traveling via air with animals. The time of approaching the check-in counter with rabbits in dirty, leaky, non-conforming cages and paying excess baggage is over! However, with advanced planning and proper arrangements one may still travel with rabbits via air at somewhat reasonable fares. Do not give up on attending the 1991 Convention on other individuals rumors or experiences without investigating the various possibilities. It is obvious that the California Dutch breeders are eager to show their hospitality and competitive enthusiasm to all.

It is with sadness that I relate to you that the extremely competitive and successful duo of Evenberg and Stearns has liquidated their rabbit endeavors for other interests. Their attitude and willingness to assist others will be greatly missed in the rabbit fancy. Although the animals are absent the facilities, knowledge, and the awareness of the location of their breeding is known and it would not take long for them to rekindle their winning ways. Their success with the Dutch rabbit will be very difficult, if not impossible, to repeat.

As a Director I'm here to serve you. If there should be any comments, questions or ideas for future topics for the Dutch Reporter concerning management, breeding or disease of the Dutch rabbit, please contact me at; Box 98; Markle, In. 46770-0098 or by calling 219-758-3014.

IMPROVEMENT OF HEAD SHAPE

by KEVIN HOOPER

In the past few years, I have noticed, and had several breeders comment that the heads of my bucks as well as my does had feminine characteristics. I knew this, but at the time, it was not one of my priorities for improving my Dutch.

Early last year, I brought in two bucks and two does with nice head shape. I had decided that it was time that emphasis be placed on the head shape. I have made a few observations that may help some of you.

Using the two bucks on different does in my herd, I noticed the offspring, on the average, did show slight improvement in head shape over their dams. The improvement wasn't dramatic, but noticeable.

The results from the two does with good heads was dramatic. Using them with bucks from my herd, the head shape of the bucks' and does' had more width, was more round, and showed drastic overall improvement.

This simply leads me to the conclusion that the head on your doe is equal, or even more important than the buck's head when trying to improve the head shape or size.

Bring in does with good heads, it worked for me.

GOOD HINDQUARTERS ---

IN A DUTCH ?

by Kevin Hooper

Most of you throughout the country who have been showing for a while hopefully have had the privilege of showing under Glen Carr. I grew up showing under Glen and I learned quite a lot in the process. A comment he made at a recent show inspired me to write this article. Glen made the comment that a particular Dutch was slightly pinched, a problem with the Dutch rabbit.

Like Glen, I place much emphasis on the hindquarters of the Dutch. Do you realize that the Florida White was developed from the Dutch? You must have full, round hindquarters and good depth over the hips (as well as other good qualities) to win with a Florida White.

If the Florida White came from a Dutch and has good hindquarters, why can't the Dutch? Here are some things that I look for in the hindquarters when culling or purchasing stock.

GOOD HINDQUARTERS --- con't.

width to balance. The depth and width should nearly equal, with more depth preferred to width.

Second, I will then run my hand down from it's high point over the loin, toward the tail, to the table on which the rabbit sits. Your hand should, if possible, hit the table at a 90 degree angle. If your hand cuts back towards the head of the animal, it is undesirable. Granted, it is often hard to find one that doesn't cut back towards the head at all, but look for the ones that cut back the least.

Third, I take both hands and go through the same motion paying close attention to the width at the lower hip. The same criteria should be looked at here as in the second step. Watch for the hip cutting in towards the middle of the rabbit.

Fourth, I turn the Dutch over and look at the width between the hind legs. This should nearly equal the width of the hips.

Last, I look at the squariness of the hind legs. The rabbit should hold or carry its hind leg and hock as parallel to the body as possible.

I realize all of these qualities are hard to come by, but this is one characteristic to which we all need to pay close attention.

FROM THE EDITOR

There are a couple of articles in this issue you might enjoy. Also, the ballot for the voting of the judges at the 1993 National Dutch Show and ARBA Convention are enclosed. Exercise your right, and **VOTE**.

I must apologize to several people for the omission of their ads in the last DUTCH REPORTER. Somehow, I inadvertently left out one whole page of ads. My apologies to Kevin Hooper, B & B Przybylowicz, Carl Decker, G & M Hamersley, Brock Wiechmann, Carol Snyder, Joanne Purpus, and Bob Bergene. Naturally, your ads will be extended an extra issue due to my negligence. REMEMBER, "To error is human, to forgive divine". I did my pasr !

Again, I would ask that those attending the National Dutch Show in Ohio try to get some good quality pictures to me for the next issue of the DR. As most of them have to be cut up in order to fit the pages properly, **they will not be returned**. Your cooperation will help make the DR a better magazine.

That's it for this time. **Have a great NDS.**

THE STOP MARKINGS OF THE DUTCH RABBIT

by: Dr. T.E. Reed

This is the unique marking on each of the hind feet of the Dutch rabbit as per the requirements of the American Rabbit Breeders Association Standard of Perfection. This marking is allocated 10 points; or, 20 percent, of the total points allowed for markings (50 points). These markings are of greater importance (point value) than the combination of the head type, ears and the eyes. The only marking on the Dutch that is of greater value is the cheeks (12 points) and the stops are equal to the saddle marking (10 points). One may assume that each of the stop markings are valued at 5 points.

The actual length of the hind foot and the desired placement of the marking is sometimes misunderstood and confused. The length of the hind foot is described as the distance from the tip of the toes to the "point" of the hock. This is the lower portion of the foot that sits on the show table when the rabbit is posed in proper position. The "point" is the tip that is the farthest to the rear.

The hock is defined as: "The joint in the rabbit that corresponds to the ankle in man. The joint distal (farther away from) the stifle (knee)". This entire joint is about 1/2-3/4 inch in length. Measuring from the hock joint would allow for a 1/2--3/4 inch differentiation where the marking is to be placed. However, by measuring from an exact location (point of hock) a specific location of the marking may be established.

The stop marking is the juncture of the front white with the rear colored portion of the fur on the back feet. Each stop marking has a specifically described SHAPE and PLACEMENT. Both stop markings are to be viewed and evaluated from four perspectives; the top, bottom and from each side.

SHAPE-Each stop to be a straight circle entirely around around the foot. This circle to be at right angles, or at 90 degrees, to the long axis of the foot. The marking to be very distinct. Long fur will allow for markings that appear ragged and lack distinction.

PLACEMENT-Both markings to be equal in length as per the description of the marking placement. This to be 1/3 of the distance from the tip of the toes to the point of the hock. This need not be measured specifically; but one must be able to estimate the exact location very closely. It is suggested that to become accustomed to the exact location that one privately review and actually study correct measurements.

To further explain, the shape of the stop should appear that one ties a string straight around each foot at the desired

location. The location may be determined by placing a string along the side of the hind foot from the tip of the toes to the end of the portion of the foot that touches the table. The string is then divided into 1/3 sections and that section placed on the front part of the foot to determine the length (placement) of the stop.

EVALUATION OF THE STOPS

It is essential that these markings be evaluated from the top, bottom and from each side. "Runs" of color into the white or "drags" of white into the color are just as important on the sides and bottom as on the top; but are oftentimes not given consideration.

The stops may be evaluated with the rabbit in the "turned over" position. The top of the stop may be looked at by bringing the rabbit closer to the examiners body and looking down on the stop. The bottoms can be evaluated at the same time the undercut is examined. Use care that the rabbit is maintained in a position, upside down, that it would be in if setting in the standard posing position. That being, setting squarely on the hind feet, hind toes perpendicular (up & down) to the stifle joint and the toes of the front feet even with the eye. Care must be taken that when evaluating the stops that the Dutch is not stretched out distorting the undercut. Both sides of each stop may be observed by gently rotating the animal to the right and left.

Close observation of the stops may be achieved by restraining the rabbit with the hand that holding the top portion of the rabbit, resting the body on the table and placing the hind legs together with the opposing hand. This allows for the exact shape and placement of each marking to be closely observed and compared.

FAULTS-

Alteration of the shape or placement, in any way, of either stop marking must faulted in the amount commensurate to the severity of the fault. Each stop has a point allocation of 5 points and it is important each fault(s) be given consistent consideration.

Runs and drags are "shape faults" that may occur on either of the 4 areas (top, bottom or both sides) of both stops. These faults may be multiple (occurring more than once) or singular on each foot and may occur on one or both stops. Multiple minor faults may be of greater point loss than one single more severe fault.

Biased, or crossed, stops are those markings that pass diagonally across the foot in either direction. In addition to being biased in the placement of the marking there can be

additional faults of runs and drags present. This fault can occur on one foot or on both feet and must be faulted in accordance to its occurrence (1 or 2 feet) and in severity to the degree of angulation (bias).

The mandated length of each stop has been discussed. An extension or shortening of this marking must be faulted in accordance to the severity of the alteration. In addition to the point deduction for abnormal length (short or long) there may be the necessity to fault the marking for shape as discussed above.

The common statement: "Stops long but even." needs further examination. A Dutch with these stop markings must be faulted for the improper placement of both markings. Comparing the above to an animal that has one correctly placed and shaped stop and the other correctly shaped but long (the same length as the above) the animal with the "equal but long stops" must be faulted more than the animal with the "odd" placed one stop. The reason being that the former animal must be faulted for 2 misplaced stops and the latter is faulted for one misplaced stop. It is extremely important that stop markings be observed thoroughly and appropriate credit be given. Multiple minor marking faults may be more severe than one more obvious and easily conspicuous fault.

It is extremely important that careful consideration be given to faults and their comparative value to the various markings and other characteristics. An example would be a Dutch with excellent general type, fur, color, and markings with the exception of one stop marking that is well shaped but extremely long. Providing that the marking was not a disqualification it's total value would be only 5 points and with the proper shape the point allocation would even be less. However, it may be very easy to over evaluate this fault considerably and give consideration to other animals with multiple less obvious faults.

Evaluation of the various faults in prospective to the point allocation for the markings and other characteristics are essential

DISQUALIFICATIONS-

Split stops-This is a situation where the colored fur from the top of the stop marking extends between one, or more, of the 3 interdigital (between the toes) spaces on one or both hind feet connecting with the colored portion of the bottom of the stop. It is essential that the colored portion of the skin meet and that the fur just not extend into the depression between the toes.

Extended stop- Where the white portion of the stop, on one or both hind leg-inside or out, extends across the hock joint onto the leg. This may be determined by drawing an imaginary line from the point of the hock to the angle of the hock (the angle created by the top of the hind foot where it turns to the leg). This is a somewhat varied area and the animal should always be given the benefit of the doubt.

Colored Toe Nails-The presence of any color pigmented toenail.

Colored Spot-Any distinct colored spot in the white portion of the stop marking. This can occur at any location in the stop marking. It is not uncommon to find colored spot(s) or colored areas around the toes or on other area from injuries during adolescence and the fur returns colored. This must still be considered a Disqualification.

SUMMARY

The stop markings are the unique markings on the hind feet of the Dutch rabbit. These markings are allocated 10 points; or, 5 points for each foot. The stops are to be equal and identical in placement and shape. Any irregularity in shape or placement is to be faulted. Stop disqualifications are those that have color running between the toes, white extending above the hock joint, colored toenails and colored spots in the white portion of the stop.

Table 1. Composition of Various Meats.

| Meat | % Protein | % Water | % Fat | Cal/lb |
|-------------------|-----------|---------|-------|--------|

(YOUTH)

* 1993 NATIONAL DUTCH SHOW JUDGE; 'YOUTH'

(YOUTH)

*

(Nominate One Only)

PLEASE NOTE THAT THE YOUTH VOTE IS STRICTLY A POLL AND INTENDED FOR THE NDS SPONSORS TO GIVE CONSIDERATION TO WHENEVER POSSIBLE.

Please nominate only one (1) judge in the space provided. This ballot is for youth paid members only. Place your ballot in an envelope and address it to: The American Dutch Rabbit Club Norma Hart, Secretary 190 North First Avenue Coal City, Illinois 60416. Your name and address must appear on the outer envelope for verification purpose only. (Ballot envelopes are only provided for in the final election, however, feel free to place your ballot inside another envelope and then seal it before putting it in an outer envelope.)

MARK THE WORD BALLOT ON THE OUTER ENVELOPE AND DO NOT INCLUDE ANY OTHER CORRESPONDENCE WITH IT.

BALLOTS MUST BE RECEIVED BY JUNE 1, 1991 IN ORDER TO BE COUNTED.....

Send Ballots to: American Dutch Rabbit Club % Norma Hart Secretary 190 North First Ave., Coal City, Illinois 60416
