PRESIDENT'S MESSAGE
by Wenton Carlton

Just returned from the National Convention. It was a good show, and I hope those that attended had a good time. The Dutch show went well and was judged by Larry Bengtson, who did a great job. Thanks Larry, for a great job. I would like to Thank all those who helped. Without them the show wouldn't have gone well. Show reports will be in the DR. I would like to congratulate the winners. Evenburg and Stearns with B.O.B., and Ken Emerson with B.O.S. To the rest of the winners, congratulations for a job well done. The quality of rabbits was great.

Mark Pecaric resigned as Director, and I appointed Jack Pugh, with Board's approval, to fill out the rest of the term. Marti Dill resigned as Guidebook chairperson. I will need a replacement. If anyone would like to help, just let me know.

I appointed Amy Minter, with Board's approval, as Youth Director. She will attend all Board meetings and represent the Youth at the meetings. She will not have a vote on the Board. Congratulations Amy. If anyone has any Youth projects or ideas, contact Amy Minter - 7405 Calkins Rd. - Flint, Mi. 48504

Now is the time to start thinking about our National Dutch Show in Ohio. The show will be held May 3, 4, & 5, 1991, and from what I hear, will be a big show. Hope all can attend.

Time sure flies. It will soon be Christmas and New Years. I would like to wish everyone a Merry Christmas and a Very Happy New Year.

FROM THE EDITOR

IF YOU THOUGHT THIS ISSUE WASN'T COMING, YOU WERE VERY CLOSE TO BEING RIGHT!

WITH THE NATIONAL CONVENTION IN TAMPA, THE HOLIDAYS, AND MY DRIVING 74 MILES TO AND FROM WORK EVERY DAY, MY SPARE TIME HAS BECOME RATHER NON-EXISTENT. I AM DOING MY BEST, BUT I GUESS THAT WASN'T GOOD ENOUGH THIS TIME.

I WILL MAKE EVERY EFFORT TO HAVE THE ENSUING ISSUES PUBLISHED IN A TIMELY MANNER.

STARTING TO WORK AT THE ARBA OFFICE IN BLOOMINGTON HAS MADE MY NORMAL 3 OR 4 HOUR WORK DAY INTO A 12 HOUR DAY, SO I AM HAVING TROUBLE FINDING ENOUGH EXTRA TIME TO KEEP UP WITH THE DR THE WAY I SHOULD. AS STATED, I WILL TRY MY BEST TO GET BACK TO NORMAL IN THE FOLLOWING MONTHS. IF IT COMES ABOUT THAT I CANNOT DO THE JOB ADEQUATELY, I WILL INFORM THE BOARD AND THEY WILL HAVE TO MAKE A DECISION AS TO WHAT WILL HAPPEN. UNTIL THEN, PLEASE BEAR WITH ME AND PERHAPS WE CAN SEE THIS THING THROUGH.

THE REPORTS FROM THE TAMPA CONVENTION ARE IN THIS ISSUE, ALONG WITH THE MINUTES FROM THE BOARD MEETING AND GENERAL MEETING.

LARRY BENGTSON DID A FINE JOB JUDGING THE OPEN DUTCH AT TAMPA, AND I HAD THE PRIVILEGE OF DOING THE YOUTH. THERE WERE A LOT OF GOOD QUALITY ANIMALS SHOWN ON BOTH ACCOUNTS, AND THE WINNERS SHOULD BE PROUD, AS THEY HAD TO BEAT SOME NICE RABBITS.

THE CALIFORNIA CREW HAVE A GOOD HOLD ON THINGS FOR THE 1991 NATIONAL CONVENTION, AND YOU CAN BE SURE THAT OHIO WILL PUT ON A GOOD ONE FOR THE 1991 NDS.

AGAIN, MY APOLOGIES FOR THE TARDINESS OF THIS ISSUE. AT LEAST FROM THE PHONE CALLS I FOUND OUT WHO READS THEIRS.

HAPPY NEW YEAR !!!!

FROM THE DESK OF YOUR SECRETARY,,,,,,

It's been a hectic year to say the least! I was fortunate to be able to attend both the '90 NDS and the ARBA Convention. These were two big shows with alot of quality Dutch shown at both. That's the 'key' word, QUALITY... These shows were both excellent and both numbers and quality were seen at each of them. I'm looking forward to '92 and OHIO, then on to CALIFORNIA.....

I'd like to take this opportunity to say THANK YOU to some very special, devoted people - If it hadn't been for Maxine and George Parmer, along with Doreen Bengtson, I don't know what we would have done! We were supposed to have a breed chairperson and secretary for Tampa, but as it turned out, no one had the job. George and Maxine pitched right in and went to work,..and I do mean work! Although they love the Dutch dearly, I don't think they, along with Doreen Bengtson, knew that they would be taking over the full load of the responsibility. Without them, I don't know what we would have done. My personal thanks to each of you. You are truly great people! I would also like to take this opportunity to thank Larry Bengtson for judging the Dutch as they should be. If you have never had the opportunity to watch Larry, by all means try to get to a show where he is judging! He handles the Dutch with such grace. How nice it is to see them rolled as they should be, and handled as if each was his own. Thanks Larry,..you can judge our Dutch anytime!

Fran Schettler and the California Dutch Rabbit Club are in charge of the 1991 ARBA Convention (Dutch) and I know that they will have everything in order and ready for us Dutch breeders. If you have any specials, please forward them to Fran. She will see that they get where they are supposed to. They will keep you updated as that time gets near. Rick Lehmann has looked into a motel for the Dutch breeders and wait until you see what he has come up with!! You'll find that information elsewhere in this issue. What a place!!..and only about five minutes from the show..... Rick dug into this the minute he got home from Florida and he did a great job with a super place. Thanks Rick!

Check your membership.....your expiration date is on the DR label. If it's time to renew, do it promptly so you don't miss an issue of the DR or that you don't lose your standings in the sweepstakes. If you have a change of address, at any time, please contact this office ASAP. The Post Office does not forward third class mail and you will not receive your issue of the Dutch Reporter.

Christmas is upon us and it seems to have 'snuck' up on me just a little quicker than I like. I'm not really ready for it yet, but I'm really not certain if another month would make any difference. We never seem to have enough time to get done everything that we'd like... Maybe we could make the days just a bit longer.....

Regardless, here's wishing each of you the most beautiful and joyous Holiday Season. May you enjoy the best New Year ever.....

"People are at their finest toward the finish of the year; they are almost what they should be when the Christmas season's here. Then they're thinking more of others than they've thought the months before, and the laughter of their children is a joy worth toiling for. They are less a selfish creature than at any other time; when the Christmas spirit rules them, they come close to the sublime. When it's Christmas everyone is bigger and is better in each part...they are keener for the service that is prompted by the heart".

MERRY CHRISTMAS....

Norma Hart, Secretary

DISTRICT 1
Jack Wireman

Hi Dutch friends,

Well, the Convention is now over and time to look forward to the 1991 National Dutch Show in Ohio. The Ohio people are very busy getting all ready for you. We hope to see our old friends and lots of new ones.

Time now to sit down and send your ads or specials to me so we can get them in the catalog. Also, if you are not a member of the Ohio Dutch Club or did not show at the last National Dutch Show in Connecticut, and want a catalog, sit down and drop me a card so I get your name on the mailing list. We do not wish to miss anyone.

Not much to report from District 1 as this is the slow show season for us and I have received no news. Our Ohio Dutch Show the Sunday after Thanksgiving had 169 Dutch. We gave Dr. Reed a good workout. Thanks Doc, and to you all.

Before I sign off I want to Thank you all for a vote of confidence again as your Director for District 1. Also, I want to Thank all who voted and showed interest in your club. Keep it up and we may hit 200 or 300 yet. I'd sure like to see a vote like that!

Times getting short, so get your ads, specials, and requests in as time will run out before you know it.

Till down the road sometime or someplace, keep hopping.

DISTRICT 1
Fred Mullinax

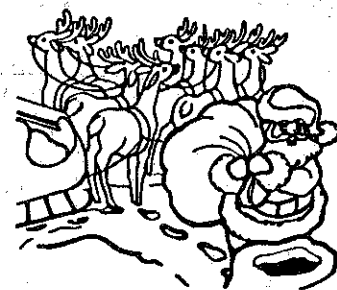

Hi Dutch Fans,

Well it finally arrived. The ARBA Convention at Tampa. I sure hope every Dutch breeder has raised that B.O.B. or B.O.S., or even better, B.I.S.! Kathy, Abby and I have a few good Dutch ready to take. We're hoping to place high in the show.

Here in the south shows have started again. There's one every other week. Dutch have been holding their own in the shows. There has been alot of different colors winning. At one show, a steel won B.O.B. and a black took B.O.S. The shows have had around 50 to 60 Dutch.

It won't be long before we have another National Dutch Show, so all of us need to get busy breeding those Dutch so Ohio will have alot of bunnies.

I had better run for now, Kathy has been packing and still keeps telling me to make sure we have everything we need for Tampa. Hope to see all of you soon.

DISTRICT 2
Dick Gehr

1990 is now history, and we have 12 months of 1991 to look forward to.

If the exhibition of the Dutch rabbit continues the way it did the latter part of 1990, we are about to see a banner year for our breed.

The last few months I have had the privilege of judging Dutch in many locations throughout the country, and I am very pleased with what I am seeing.

Numbers of rabbits, and exhibitors alike, seem to be up. Particularly if compared to what we were experiencing a couple of years ago. The progress of quality is indeed a pleasure to witness.

Our Youth exhibitors and breeders are making great strides forward. This was evident by the animals I had the good fortune to judge at the Tampa Convention. Numbers were good, and the quality impressive. The thing that stood out in my mind was depth in the classes. On any given day, nearly any rabbit in a class could conceivably be a winner. If you had a second, third, or even fourth in a class at Tampa, you were in the running.

I was pleased with one thing even more than I was the rabbits, and that was the camaraderie and sportsmanship exhibited by our Youth members. We will be fortunate to have a great group coming up in the ranks to replace those of us that have been around for a while, when the time comes! We are definitely not going to rush that fact, but rest assured things will be in good hands.

I wish each of you a great New Year, and hope we all have a B.O.B. or two in 1991.

Until someplace down the road.

DIRECTOR'S MESSAGE

By Fran Schettler, California

The California Dutch Rabbit Club recently held its annual All-Dutch Show and meeting in Visalia on November 4, 1990. Scott Williamson presided over the judging and placed a black senior doe owned by Joanne Purpus as Best of Breed. Best Opposite of Breed was taken home by a surprised Fred and Helen Schmall, who won with a tortoise junior buck. Scott also conducted the Dutch auction, which was the first time in recent history that the club has held an auction of Dutch rabbits. Top seller was a steel senior buck, donated by Joanne Purpus. The auction was a very successful fund raiser for the club, with Joanne Purpus, Jill Dobson and Kimberly Kuppens donating all of the proceeds from the sale of their rabbits to the club. The Schmall's provided their usual outstanding food for lunch, which included deep pit barbequed beef and, of course, rabbit. (It doesn't pay to place last in this show.)

Of particular interest to ADRC members is that the California Dutch Rabbit Club has, during this annual meeting, confirmed its intention to bid on the 1993 National Dutch Show. The location recommended is the Alameda County Fairgrounds in Pleasanton. Pleasanton is a suburban community not far from Oakland in the San Francisco Bay Area. It is my intention to present the California Dutch Rabbit Club bid to the Officers and Directors of ADRC at the next National Dutch Show.

The club also selected its "Youth of the Year" winner during the annual show. The winner is Debbie Holbrook of Vacaville. The award is presented to the youth club member who has achieved the most during the year with their Dutch, and who submits the required application. Show winnings are only a minor consideration in this award. Congratulations to Debbie!

I would like to thank Dr. Reed for the response to my question in the DR a couple of issues ago about the moulting problem. He took the time and effort to send me a 3 page letter discussing the moulting process and possible answers to my problem. Thanks Doc. However, I have not heard from anyone about a computerized pedigree program. Surely some of the Dutch people out there are using one? I would still be interested in your feedback. What about a show secretary's program?

I hope that everyone had a good time at Convention, and Jim and I wish everyone Happy Holidays!

ADRC BOARD OF DIRECTORS MEETING; 1990 ARBA CONVENTION, TAMPA, FLORIDA

The meeting of the ADRC Board of Directors was called to order at 8:00 PM by President Wenton Carlton. Director Wireman made a motion that we dispense with the reading of the last Board of Directors minutes as they were published in the Dutch Reporter. The motion was seconded by Director Parmar. MC

ROLL: President Carlton; Vice President Reid; Directors Wireman; Mullinax; Gehr; Parmar and Christ and Secretary-Treasurer Hart were present. Those absent were, Directors Pecaric; Ehnis; Reed and Schettler.

Report Of Officers: Secretary Hart stated that at the present time, we have 766 total members. 346 Single Adult/192 Husband-Wife and 228 Youth. She also stated that since January 1, 1990 through 10/31/90, there had been 550 open sanctions issued and 237 youth. A total of 787 sanctions with two months to go. She stated that the Dutch are up in her area and seem to be on a upswing. The quality seems to be improving. Director Parmar said that the Southern part of Oregon, Dutch are up some with a few new breeders. He said that the youth are going strong in Dutch. Director Mullinax says that as a whole, shows are picking up with 60-70 quality Dutch being shown. Vice-President Reid said that the Dutch are 'dead' in his part of Texas. There are only two breeders showing anymore right there. In Oklahoma, 3 or 4 breeders have sold out. In the Houston area, there are only 1 or 2 breeders showing along with a few youth. He said that there is only a handful of Dutch at a show anymore. He stated that breeders that had been in Dutch for a long time have ceased due to medical, physical or financial reasons. Director Wireman stated that shows are up and down. There appears to be more quality than quantity. He stated that there are quite a few youth members in Ohio. Director Wireman stated that the judges for the 1991 NDS have been secured and things are going pretty well. He said that he has heard alot of good comments on the Dutch Reporter. Director Gehr says that the Illinois Dutch are up a little due to a revival of the Illinois Dutch Rabbit Club. They have some active pushers. The Dutch at the State Convention and All Dutch show was way up with alot of quality animals. The IDRC would like to host another NDS in the future. Director Gehr said that he has been fortunate to judge the Dutch in many areas. He said that there has been much progress in the last five years. Director Christ said that the Arizona area is basically unchanged with only himself and President Carlton showing Dutch. New Mexico has a Dutch breeder in one club that hopes to build up the Dutch showing in that area. The 4-H in the Phoenix area is recommending Dutch to the children.

Publicity Director Al & Barb Butler stated that Al has judged in five states in the past 6 weeks with the numbers being good but not as high as he would like to see. He stated that the quality overall is outstanding. Barb Butler stated that there has been much comment on the Youth Dutch Display and the responsible party should be commended.

President Carlton says that he has judged alot of shows up in Utah and Montana and Colorado. He said that he was surprised at the numbers and quality especially in the youth. He stated that the youth rabbits shown could have competed and won in the open division almost anywhere. He noted that there were some nice Chocolates in Utah and Montana was coming up a little. He said that several people were coming around in New Mexico and he hoped to see the numbers up in that area in the future.

There was discussion about the possibility of certificates and ribbons for adults and youth. This has been a discussion for quite some time now and it was felt that something should be done ASAP. Director Gehr made a motion that Secretary Hart be given the authority to purchase enough ribbons to last until the '91 NDS and get input at that time. Director Wireman seconded the motion. MC It was decided that not everyone will

page 2....

be happy with the decision, but it is impossible to please everyone when making decisions.

Publicity Committee says that sales are down. Most of the stock is new and there are some discontinued items. All of the standard items are kept. They have dolls here at the Convention in a separate raffle with the proceeds to go to the Ohio NDS in '91. Support the raffle. There was a discussion on keeping the Dutch jackets in the publicity department. It was felt that this should be up to the department

Director Gehr stated that Kevin Hooper is doing a great job on the sweepstakes, however, he no longer does the youth sweepstakes and it has been passed on to a youth chairperson. The open sweepstakes pays \$1.00 for each show report typed while the youth receive nothing. The youth chairperson is doing a fine job and should be given something for it. Director Wireman made a motion to pay the youth sweepstakes chairperson 50¢ per show typed for the DR. Director Christ seconded the motion. MC

OLD BUSINESS: There was a letter presented by Marti Dill to resign as Guidebook Chairperson. A motion to accept her resignation was made by Director Wireman and seconded by Director Mullinax. MC The ADRC will solicit a new chairperson. It was discussed about the sale of the Guidebooks the ADRC currently has. These Guidebooks are now available without membership at a cost of \$4.00. This is to be listed in the Dutch Reporter. A motion allowing the sale was made by Director Gehr and seconded by Director Wireman. MC.

The ADRC computer needs to be updated immediately. President Carlton is going to check on the price of one in his area and Director Gehr and Secretary Hart will look into a purchase in their area with a service contract if possible. Director Mullinax made a motion to allow enough ADRC monies to purchase a new computer that is adequate. This motion was seconded by Vice-President Reid. MC

The Schettlers and the California Dutch RC will be breed chair and secretary for the California ARBA Convention.

We would like a youth chairperson to act as a delegate to the ADRC Board and see what can be done to promote or help the youth members. Amy Minter is to be asked if she would take on this responsibility as a liason. She will be given the opportunity to attend the Board Meetings but will have no voting priviledges. She will solicit for possible youth programs, etc. and bring them to the Board. A motion was made to allow the above by Director Christ, seconded by Director Gehr. MC.

Due to a problem with the results of the final ballot count, they are being recounted at the Convention and the results will be published in the DR.

A motion by Director Christ and seconded by Director Parmar was made to allow the sale of the ADRC Dutch Reporter equipment at a negotiable price. The equipment is deteriorating in outbuilding storage and is no longer needed to publish the DR. The Secretary was given a sale figure to ask and will be offered to another club at this fee. MC.

A motion to adjourn was made by Director Parmar and seconded by Director Mullinax. MC

Respectfully Submitted,

Norma Hart, Secretary

ADRC GENERAL MEMBERSHIP MEETING; 1991 ARBA CONVENTION; TAMPA, FLORIDA

The General Membership meeting was called to order by President Wenton Carlton. Fred Cremer made a motion that we dispense with the reading of the minutes of the last General Membership meeting as they were published in the Dutch Reporter. Motion seconded by Jack Pugh. MC

ROLL: Those present were President Carlton; Vice-President Reid; Directors Wireman; Mullinax; Ehnis; Gehr; Christ Director Parmer arrived late. Secretary/Treasurer Hart was present. Those absent were: Directors Pecaric; Reed and Schettler.

Report of Officers: * (Can be found in the Board of Directors Minutes)

President Carlton advised that if the membership have any problems or concerns, to notify your Directors, the Secretary's office or himself before the National meetings. That way, these concerns can be addressed by the entire Board.

Director Gehr (and DR Editor) asks that the membership submit some NDS photos for publication.

ADRC Publicity, Barb & Al Butler state that there is a raffle at the Dutch booth with proceeds going to the next NDS. Help support this show and buy some tickets to win some nice prizes. They could also use some help at the Dutch booth.

Secretary Hart gave a brief report of the Board Meeting. (Minutes can be found elsewhere in this issue).

Kevin Hooper, open sweepstakes chairperson, noted that if you have any questions, call him. He reminded that you keep your dues current so that you do not lose your points. He also stated that to make sure your points are credited properly, you should fill out your name on your entry forms completely.

Norman May stated that on behalf of the Florida Dutch breeders, a big Thank You is given the Dutch breeders here for making the show a good one.

Dick Gehr stated that it is often difficult to get a good Dutch judge. He stated that the ADRC had one at this show and we should appreciate his judging ability and thank him for a job extremely well done. He also noted that a very big Thank You should be given to Doreen Bengtson and Maxine Parmer, for all of the hard work done to complete this show as it should be. He said that when no breed chairperson or secretary was available for this show, these two dedicated people along with George Parmer worked very hard to get the job done efficiently. A big thank you from all of us!

NEW BUSINESS: There was a problem in reading the final election results and therefore, a committee was appointed here at the show to tabulate the ballots. Secretary Hart will work on a Resolution to change the manner in which to run for office. Possibly do away with the petition form.

The Sellers' Class will be held immediately after the meeting.

The ADRC is soliciting for a responsible Guide Book chairman. If you are interested, please contact President Carlton.

Possibly contact the California Dutch Rabbit Club and Director Schettler about having the Dutch banquet as a brunch or luncheon so as not to conflict with the youth banquet.

Being no further business, Director Mullinax made a motion to adjourn, seconded by Jack Pugh. MC

Respectfully Submitted,
Norma Hart
Norma Hart, Secretary

KINDLING PROBLEMS; SCATTERED LITTERS

BY DR. T. E. REED

Every rabbit breeder approaches the time a doe should kindle with great anticipation. However, it can be a great disappointment when the doe fails to construct a proper nest, fails to use the nest box, and/or scatters the young on the wire. This problem is complicated, and exaggerated, during the colder winter months due to the fact that it is almost totally impossible to save any of the young due to exposure. During the warmer months of the year, there are opportunities to save partical litters of the young, or some of the litters, by placing the young in the nest and manually preparing the box for the doe.

The cause of the above problem can be catagorized into one of the following:

NEST BOX INCOMPATIBILITY

"Scattering" of the litter on the wire, due to the doe not wanting to use the nest box, can often be caused by the fact that the nest that one desires the doe to use is not compatible with her desires. The nest box may be of the improper size and she contaminates the nest by setting in the box, urinating and deficating in the box; and when it becomes time to kindle, the nest box itself is not condusive to the kindling process due to being soiled by feces and urine. This problem can be corrected by adjusting the size of the nest box one uses. From experience, it is suggested that the nest box be approximately one inch longer than the doe, in a normal setting position; and one inch wider than the doe, in the normal setting position. It is a tendency for most rabbit producers to use nest boxes that are entirely too large.

Due to the uniqueness of the doe, some does prefer that the nest box be covered, while others prefer an open nest box. This becomes the problem of the manager and from the actions the doe shows prior to kindling, the manager must make the decision as to what would be most compatible for the doe. Certainly, if the doe fails to use one type of nest box on a previous litter, it is recomended that the site and the type of nest box be changed for the next litter.

There can be other causes of nest box incompatibility rather than just the construction. Some does will fail to use the nest box due to the fact that the nest box will have a strong odor of disinfectant. It is imperative that all nest boxes be sterilized prior to placing with the doe; and they should be sterilized with the type of disinfectant that is appropriate for the individual's needs. However, it is imperative that after the disinfection process, the nest boxes should be rinsed thoroughly with good clean water so they do not carry any offensive odors to the doe.

Many individuals disinfect their nest boxes correctly, rinse then thoroughly, then place then in an area of storage where rodents and predators, as well as other animals, can run through the nest box and leave their odor. Again, many does find this offensive and will fail to use the nest box.

It is imperative that after proper disinfection and rinsing, the nest boxes should be stored in an area that they can be kept in an sanitized condition.

The use of the proper bedding material is very important. The bedding material should be of the type that the doe desires and also should be very clean and not carry any type of offensive odors where animals, predators, or rodents have

contaminated the nesting material. This single factor probably causes more problems with scattering litters than most rabbit breeders are aware of at this time.

Much of the time the bedding carries the odor of the natural predators of the rabbit and this is instinctive for the doe to not want to be in these places; and they do not desire to kindle their kits in an area where there is a natural predator, or the odor of a natural predator.

PRESENCE OF RODENTS AND PREDATORS DURING THE KINDLING PROCESS

The presence of rodents, predators, and strange animals during the kindling process is one of the most common reasons for the does to "scatter" the litter on the wire. This is also one of the most denied statements by most rabbit managers. One must be consciously aware that there can be rodents and predators in the rabbitry without the rabbit manager being aware of their presence. These predators are usually nocturnal and often go unnoticed by the rabbit manager; but are quite commonly present during the kindling process in the nighttime hours. Many rabbitry owners have reported the presence of raccoons and opossums rearing young themselves in the rabbitry without their being aware of this fact until many months or even a year later.

The kindling process is a very frightening time for the doe, particularly the first litter doe, and they are very intense in their inherited activities. Anything, that upsets this inherited awareness can be very destructive and damaging to the kindling process.

The control of rodents and predators is something that one should be aware of throughout the entire year due to the fact that it can be very devastating during the kindling process. Also, these predators appear to be more common in the rabbitries during the colder months of the year when there is a high incidence of "scattering" of the litters for obvious reasons that they themselves want to keep warm; and need shelter as well as food.

POOR MATERNAL INSTINCTS

The maternal instinct of a doe is a very highly inherited trait. One should use the maternal instincts of a doe in the culling factor in your production herd. Does that fail to have good maternal instincts will pass this trait on to their offspring. This is a very important factor in determining the cause of does "scattering" the young on the wire. One should use caution that if the doe does not have good maternal instincts that it is due to the hereditary cause and not an acquired trait through the presence of disease.

DISEASE

This is a very common cause of "scattering" young on the wire. This is strictly due to the presence of a metritis (uterus infection) in the doe. This condition can be present in first litter does as well as older does. This is usually the cause of "scattering" young on the wire of does that have previously made good nests, kindled, and reared good litters. The presence of the infection in the uterine horns of the doe produces a toxin that destroys or diminishes the maternal instincts that the doe has inherited. With the presence of this uterus infection, the doe will lose those traits that she normally had, or, should have

had. This is a very common condition that is seen throughout the United States; and apparently in higher incidents at the present than in the past.

This condition can easily be treated and there is an excellent preventative medicine program for this condition that entails the administration of medication each time the doe kindles. This prevents the metritis from developing.

NON-METABOLIZABLE VITAMINS

This cause of "scattering" the litter has been in existence for several years. It has not been documented scientifically; but, results from the addition of supplemental vitamins to the rabbit's diet has been successful in correcting the problem.

This condition is where the adult producing animals ingest feeds that have sufficient amounts of vitamins, Vitamin A in particular; and, for some reason, the animal is not able to metabolize the vitamin in the digestive tract and absorb the vitamin into the bloodstream. One of the common signs of this condition is that the doe falls in maternal instincts and will scatter the young on the wire rather than make a nest. If, in the next breeding, the does are supplemented with water soluble vitamins in the drinking water, they will usually kindle normally and have the normal maternal instincts that are anticipated.

It is theorized that the vitamin A that is ingested by the doe, is in some type of form that is non-metabolizable and cannot be absorbed from the digestive tract. This, in turn, causes an Avitamonosis A and one of the common signs of lack of vitamin A is stillborn young. As stated earlier, the entire theory behind this situation is not scientifically understood; but, the addition of water soluble vitamins at the normal rate prescribed on the package is successful in curing the problem.

"Scattering" the young is a very serious problem in many rabbitries throughout the United States. The cause of the majority of these problems can be categorized into one of the above. It is imperative, if one is going to be a success in the rabbit enterprise, whether a fancier or a commercial operator, there needs to be continuous production throughout the year from the producing does and "scattering" of the young will certainly prevent the success of one's goals.

STRAIGHT COLORS
by Al Meier, S.C.

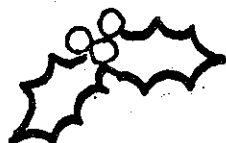

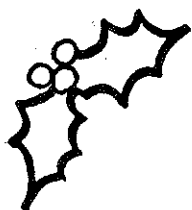

Dick,

You asked for comments on breeding straight colors. I breed for blacks only because as I've said many times, I breed NZ Reds, and play with Dutch. In approximately 40 years of Dutch, I have never kept more than 6 breeding does and, rarely, more than 1 buck.

After several false starts, I decided that I needed a buck that had cheeks (rounded bottoms) and stops as close to the standard as possible. The best buck I could find was a blue that was best opposite blue at a National Dutch Show. His background was almost entirely black. Up to 18 years ago, I had used two other blues - both bred out of my blacks - and good enough to be big winners. One I gave to Charlie Williams as a young senior. He came back to me 3 years later with 26 grand champion legs stapled together. The second one of my breeding was a winner of best opposite blue at a Convention.

I do not find that blue blood contributes anything to black color, although I believe the blues need some black blood once in a while to keep the blue color from getting mealy.

ED: Al also sent me a clipping from a "Fur and Feather" magazine from the 40's on breeding steels. If I have room, or can reproduce the clipping with the copier I will use it this issue. If not, I'll use it at a later date.
THANKS, Al.

NOTE NOTE NOTE NOTE NOTE

THE FIRST CLASS POSTAGE HAS BEEN DECREASED IN COST.

ANYONE WISHING FIRST CLASS MAILING OF THE DUTCH REPORTER MAY NOW GET IT FOR \$ 5.00 INSTEAD OF \$ 8.00. THIS DOES NOT APPLY TO CANADIAN AND FOREIGN MEMBERS. THERE IS STILL AN \$ 8.00 SERVICE CHARGE FOR CANADIAN MEMBERS, AND A \$ 10.00 SERVICE CHARGE FOR OTHER FOREIGN MEMBERS.

THIS DECREASE COMES ABOUT AS THE DR IS BEING MAILED AT A LESSER COST THAN IN THE PAST.

GUIDEBOOKS ARE NOW AVAILABLE FOR SALE AT THE COST OF \$ 4.00 PER COPY. IF YOU KNOW SOMEONE THAT WOULD LIKE A GUIDEBOOK, THEY MAY PURCHASE A COPY UPON PAYMENT BEING SENT TO THE SECRETARY'S OFFICE.

LETTER TO THE EDITOR
BY JILL DOBSON, CA.

RECENTLY I HAVE BEEN ASKED TO BE AWARDS CHAIRWOMAN FOR THE 1991 ARBA CONVENTION, TO BE HELD IN POMONA, CA.

I HAVE SOME WONDERFUL IDEAS BUT WOULD LIKE YOUR HELP IN SOLICITING DONATIONS.

COULD YOU PLEASE MENTION IN THE NEXT DUTCH REPORTER THAT I WOULD APPRECIATE ANY CONTRIBUTIONS.

THANK YOU,
JILL

ED: LET'S ALL SEND IN A DONATION FOR THE 1991 CONVENTION SPECIALS.

CAN YOU IMAGINE WHAT KIND OF AWARDS WE COULD LOOK FORWARD TO IF EVERY ADRC MEMBER SENT IN JUST \$1.00 ? WHAT ABOUT \$5.00 ??

SEND DONATIONS TO:

JILL DOBSON

YOUTH REPORT

Hi!! Let me introduce myself for anyone that may not know me. My name is Amy Minter and I am from Flint, Mich. I am a youth Dutch rabbit raiser and I have been appointed to be youth Spokesman by the ADRC Board of Directors during the Tampa Convention. In this position I will be representing all of the youth Dutch exhibitors from across the country during Director and general meetings of the ADRC. I also will be compiling youth news, will be submitting a youth report for the Dutch Reporter. I sincerely hope to hear from alot of youth telling me what is happening with youth Dutch in your areas. I would also like to know any questions or concerns you would like me to address with the open members during meetings.

I guess the biggest youth news for now is the National Conv. in Tampa. In three words--It was GREAT!!!! There was 113 youth Dutch entered with the largest variety being black with 44 entries. I know that I speak for all of the youth Dutch exhibitors when I sincerely thank Mr. Gehr for the great job of judging. B.O.B. was won by Noelle Reeves with a gray Doe and B.O.S. was won by Amy Minter with a black buck. Best Display was won by Amy Minter, with Noelle Reeves winning Best Fur.

While at the convention I did get a chance to meet and speak with several Dutch youth exhibitors from across the country. Derek Sugalski was there from Mass., Tammy Wise from Ohio, Eric Meyer from Ill, Noelle and Michell Reeves from Oregon, and Paula and Jennifer Black from Mich. Just to name a few that I got to meet. I am really looking forward to hearing from these youth plus many more so that we can really keep the news current and know what's going on with youth Dutch!!

Many of the youth Dutch exhibitors also competed in A.R.B.A. Youth contests while in Tampa. I would like to hear from those that competed so I can possibly include an article on this with the next Reporter. Mr. Dallas Meyer was Youth Chairman this year and he really did a super job! I know that all of the youth I talked with sure had a GOOD TIME!!! In closing, I just want to remind all of the youth exhibitors to keep those does bred and the nest boxes full for the biggest Youth Dutch show ever in OHIO in May. Let's really show the open members what Youth Dutch can do!!!!

Again, Please let me hear from you!!!!

Amy Minter
Youth ADRC Spokesman
Flint, Mich. 48532

THREE SHOWMEN
by Debbie Clark

I have thought long and hard before writing this article because I did not want it to sound like we were bragging. After weighing the pros and cons of the article, I'm still going to write it. It was a very special experience and I hope it or something like it happens to you.

Amy and Russel (my kids) were showing Dutch at an Open night show in Cleburne, Texas. They only had one Dutch left on the table, a junior doe named Pebbles. She had won B.O.S.V. We were now waiting on Tex Thomas to finish the rest of the Dutch for B.O.B. and B.O.S. It was between 3:30 and 4:00 in the morning and both kids could barely keep their eyes open, so I told them to go ahead and find a place to take a nap.

Tex selected Pebbles for B.O.S. and almost didn't give her back to us. He made some very nice comments about her even after he'd selected B.O.B. I was thrilled, but the kids were asleep.

Now I know what you're thinking, that this is the big experience. Well, you're wrong. As Paul Harvey says, "Now for the rest of the story". We had come with two other families, and were packing up to go. Mr. Mike Wills and two other Dutch exhibitors came over to congratulate us on our win. Now you're saying "so what's the big deal?" Number 1 - we were located on the back side of the barn, so they had to hunt to find us; number 2 - we raise 6 different breeds and have won B.O.B. or B.O.S. before and not very often have breeders we have been in direct competition with ever congratulated us; number 3 - their congratulations were warm and sincere.

I have hesitated to write this article because I cannot

Three Showmen can't.

remember the other two gentlemen's names, but I felt their example and sportsmanship should be recognized and imitated by all of us. I regret that my kids were not awake to see this fine example of good sportsmanship in action.

The experience of being congratulated by your peers is one more of us should have. The practice of congratulating the winners is something we should all do. I realize shows are sometimes hectic, but it does not take long to show your appreciation of the winning animal and its owner. Try it - you will be surprised at the shocked looks you might get. I bet that when your day in the sun comes, those people you have congratulated in the past will give a round of applause, a hug, or a slap on the back. That, my friend, is SUCCESS!

As I have said earlier, we raise 6 breeds of rabbits and each one is special, but as far as people go - in the words seen in the Dutch Reporter, "If it ain't Dutch, it ain't much!"

ED: I received another note after the Tampa Convention from Debbie Clark, and she reported that Russell, who is 11 years old, won the Rabbit Prince award in the ARBA Youth Royalty Contest this year. Also, he celebrated his birthday Nov. 8th on the way to the Convention. What a present! This was only Russell's second year in the Royalty contests.

CONGRATULATIONS RUSSELL !!!

NOTE OF THANKS

I WOULD LIKE TO THANK RICK LEHMAN FOR SENDING IN THE PICTURES THAT ARE USED IN THIS ISSUE OF THE DR. I HOPE THEY COME OUT AS GOOD AS THEY LOOK IN PERSON.

BY DR. T. E. REED

REMATING THE FEMALE DOMESTIC RABBIT AFTER KINDLING
WHEN? - WHY?

The length of time allowed to elapse from the time the doe kindles until she is remated will vary considerably depending upon a variety of circumstances. Included in determining the "breed back" schedule will be:

1. The total number of kits being raised by the doe.
2. The intended production purposes of the doe and litter.
3. The genetic capability of the doe to maintain physical condition during lactation.

The ultimate determining factor must be made by the rabbit manager utilizing the "individual" rabbit's physical condition to withstand remating and the rigors of another gestation period and lactation as the deciding factor. This will vary from herd to herd and from rabbit to rabbit, depending upon each individual's physical condition and the desired goals of production. However, there are some general guidelines that the rabbit manager may want to implement, fully understanding, that these may be altered for the individual doe under various circumstances; or, may be completely altered depending upon the purpose of the rabbit's produced.

It is generally accepted that once a doe is in production that "ideally" it is best to keep that animal in production due to the fact that by following this principle, it will usually minimize reproductive problems. It is generally accepted that excessive fat accumulation within the doe's abdominal cavity is the number one cause of breeding difficulties in the domestic rabbit. In addition, most rabbit persons are not aware of the small amount of pellets needed to maintain a "non-working" rabbit; and, therefore, dramatically overfeed the doe.

Excessive fat accumulation within the abdominal cavity acts as a physical barrier to prevent the ovum (egg) from entering the female reproductive tract to be fertilized by the deposited sperm; thereby, considerably decreasing the conception rate. In addition, there appears to be a decreased receptiveness of the female rabbit to the male in obese does. Regardless of the intended use (commercial production or fancy), a doe that is excessively fat may be a nonproducing liability to the herd.

The female domestic rabbit is usually more receptive to the male approximately seventy-two hours after kindling than at any other time in her reproductive cycle. The actual conception rate may

be somewhat lower in does bred at this time; but, the receptiveness to the male is at its peak. As lactation increases, the receptiveness of the doe to the male appears to decrease to varying degrees.

To take advantage of the above phenomenon and to incorporate the fact that producing does are usually not as apt to be excessively obese, some rabbit raisers recommend that the producing doe be remated two weeks prior to weaning the litter.

Most litters are weaned at four to eight weeks of age. Therefore, one may consider remating the doe at fourteen to forty days after kindling. By following the above schedule, the does can be palpated for pregnancy twelve to fourteen days after mating; and, in the doe that is pregnant the litter can be weaned and she will have two weeks to recuperate from the rigors of production prior to kindling the next litter. If the doe is palpated to not be pregnant, the doe can be immediately remated and the litter can be retained with the doe for another two weeks until she can be palpated pregnant. At that time, the litter must be weaned and the doe should be ready to kindle again in approximately two weeks. If the doe fails to conceive the second time, the doe should be labeled as a "problem breeder" and all efforts possible taken to see that the doe becomes pregnant as soon as possible; and, special attention give that she does not become obese, complicating the breeding problems.

Ideally, the doe should be mated and palpated pregnant prior to weaning. The reason being that the doe is usually more receptive to the male. Also, due to the demands of lactation during the first three to four weeks after kindling, and an overall general increase in activity during the latter stages, the doe is not as likely to become obese and allow for a decrease in receptiveness. Also, the conception rate is increased. The above can be utilized as guidelines as to when the doe should be remated after kindling; but, it is extremely important that the manager consider each doe as an individual and remate her for the specific conditions that exist. Some of the specific situations are discussed below:

DOE THAT LOOSES THE ENTIRE LITTER

It is generally recommended that does that loose their litters during kindling; or, shortly after kindling, and does not have other complications, be remated three to seven days after kindling. This maximizes production for the commercial breeders and allows for the maximum utilization of desirable genetic characteristics for the fancier.

If complications are present, the does should not be remated until the problem has been corrected and they have regained an acceptable physical condition.

Does that loose litters during the nursing phase of production

can be remated immediately if there are not any complications. One should determine the cause of death of the kits so actions can be taken to prevent the reoccurrence of these losses. It is extremely important that the excellent sanitation practices are implemented prior to the kindling process.

DOES WITH SMALL LITTERS

On occasion, the fancier will have does that have twins or triplets rather than a normal size litter and there is not the opportunity to foster these young to another doe. It may be highly recommended that these does be remated three to fourteen days after kindling, if the doe's physical condition can withstand this intense reproductive schedule.

Does that are only required to nurse one or two kits, with other things remaining equal, are not placed under severe rigorous lactation and usually adapt very well to a rapid rebreeding schedule.

DOES WITH EXTREMELY LARGE LITTERS

These does may very rapidly deteriorate in flesh condition the first three to four weeks after kindling; and, are not physically in condition to be remated on the regular "breed back" schedule, even when provided with adequate supportive care. One should extend the "breed back" time for these litters and not remate the doe as scheduled until she is in adequate flesh condition; or, wean the litter and allow the doe to recuperate before remating.

This is an area of great concern for the commercial producers. It is mandated that the commercial doe has production parameters that will allow her to raise a litter of seven to nine kits, allows for remating at ten to twenty-one days after kindling and has the inherent ability to maintain excellent breeding condition. If the commercial animal cannot maintain good physical condition with these production parameters, culling may need to be considered and the nutritive program closely examined.

DOES WITH COMPLICATIONS

Kindling is a very stressful time for the female domestic rabbit. There is an abundance of situations that can complicate the kindling and nursing process such as dystocia (difficult births), reproductive infection, respiratory infection, ketosis and so forth. Each of these situations must be handled on an individual basis. It is extremely important that any problem be identified and the necessary precautions taken to prevent these from reoccurring in future litters.

FANCIERS THAT DO NOT DESIRE MORE THAN ONE TO THREE LITTERS PER YEAR

There are many individuals that desire to raise only one to three

litters per doe per year due to the physical limitations of the space available. That can be done very successfully; but, the owner must use extreme care that the doe does not become obese in the time interval between breedings. This mandates that the doe be fed a restricted amount of feed each day to control the total energy intake to maintain good breeding condition. Adult does are usually very inactive and are kept in small cages. These animals need comparatively small amounts of energy to maintain their body weight and breeding condition.

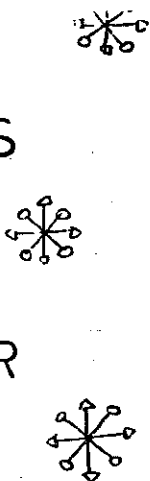

In summary, the time to remate a doe after kindling is relative to the intended use of the doe and the actual physical condition of that animal. General guidelines for remating the doe are as follows:

1. Does that loose their litter at or during kindling (no complications) - 3 to 7 days.
2. Does with very small litters - 3 to 14.
3. Commercial production does - 10 to 21 days.
4. Commercial/fancy rabbits - 2 weeks prior to weaning
5. Does with complications that cause poor physical condition - when appropriate

Condition of the doe is extremely important and the above recommended remating schedule has been determined to prevent the doe from becoming obese as this is the number one reproductive problem in the female domestic rabbit.

If you should have any questions concerning the provided information; or, other questions concerning rabbit health and management, please address your inquiries to: "Did You Know"; Dr. T. E. Reed; Box 98; Markle; Indiana 46770-0098. A prompt reply will be received.

Attn: Letters to the editor

Dear Dick:

I had such a good time at the ARBA Show in Tampa and finally getting to meet so many of the Dutch folks. I was so impressed how cordial and friendly everyone was and they were very helpful discussing tips and ideas with me on how they raised their Dutch. This comradery between the Dutch exhibitors is very important in establishing life-long relationships and I am happy to be a part of this group of people.

An educational exhibit at the youth section really caught my eye as being very unique, interesting and well researched. I believe the youth responsible were the Reeves' girls. They had taken the Dutch breed and photographed them as they are whether correct or with faults, then they made ceramic figures and written descriptions about their different markings. Enclosed are copies of photos I took of this fine exhibit. These gals are to be commended for their work. I thoroughly enjoyed this and hope ya'll saw it also.

Also enclosed are a few photos I took at the 1990 convention. I hope you can use them.

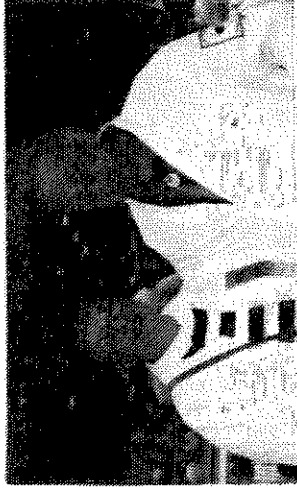

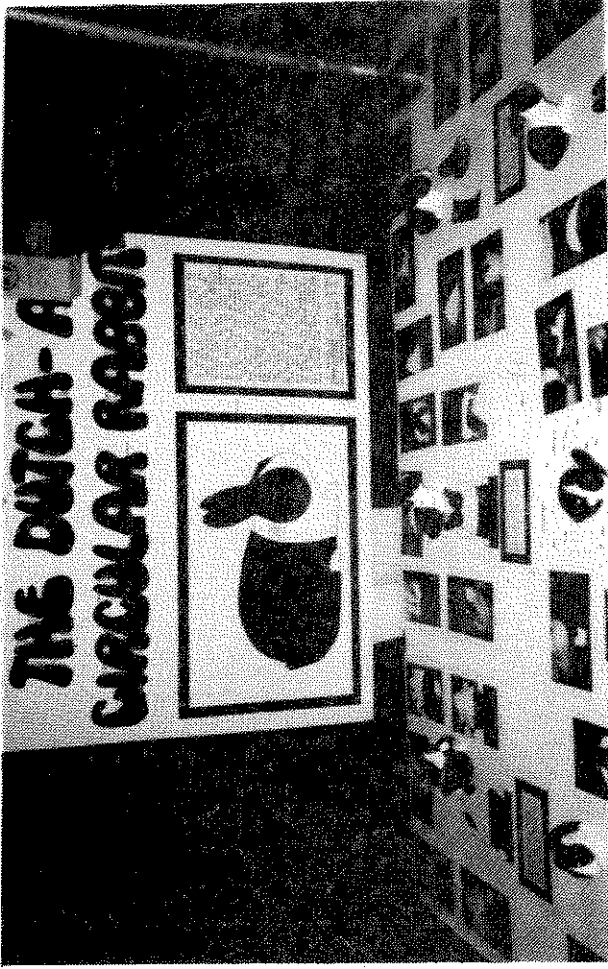

Sorry, I will not be able to attend the 1991 ARBA convention in California, but I look forward to continuing and renewing friendships with my Dutch friends in Ohio in 1992.

I thank Larry Bengston for putting my Sr. Tort Doe (D3) up for BOSV.

Yours in the fancy,

Carol

Carol M. Snyder
